IMPORTANT DATES AND DEADLINES

We have listed below the important deadlines and dates in the course registration process. Please keep these dates in mind; be sure you are meeting the stated deadlines. If you are uncertain on how to proceed, please ask questions. Discuss courses with parents and guardians, teachers, guidance counselors, etc. Use your time wisely and well.

6 January Course books are distributed.

19 January Pre-registration is for all Business and Computer Science courses and certain Health, Physical Education, and Social Studies courses. Applications begins on this day. Each department will determine and announce pre-registration procedures. Pre-registration is for only those classes that have limited enrollment. Pre-registration cards will be available in departmental offices starting on **14 January**. The following courses require pre-registration:

- All Computer Science Courses
- All Business Courses
- All Social Studies Electives

The Following Health and Physical Education Courses:

- Health at 7:50 a.m.
- Health if you are a Junior
- Kickboxing/Project Adventure
- Yoga/Tai Chi
- First Aid
- Nutrition

Departmental approval is given by chairpersons of all departments for any special class, including honors; departmental approval is not given on this day. Check with individual chairpersons and teachers as well as the course book for courses that require pre-registration or approval.

21 January Pre-registration forms are due to the appropriate chairperson.

28 January Deadline to apply to take extra units **OR** an H-period (7:50 a.m.) class. You must submit the form on **page 63** of this booklet if you are taking a class at 7:50 a.m. **or** extra units. Submit your form to your Cor teacher. If you are planning to take extra units, make an appointment with your Guidance Counselor early.

28 January-3 February Students begin to choose classes through the on-line registration system. Students may do this work at home or in school. Students must finish by **3 February**.

Late May Course verification forms are given to students. During the announced days, students may make course changes in the Programming Room. These dates will be printed on the course verification sheets and listed on the television monitors; watch for announcements. Changes are based on space availability and qualification. There is a twenty-five (\$25) fee for all changes.

28 June This is the final day for any course changes; there is a twenty-five dollar fee. Changes will be done from 9:00 to 11:30 a.m.

PLEASE NOTE: All student programs will be finalized on **29 June**.

BELIEF STATEMENTS

The community of St. Francis Prep values God's life in each person. Therefore we are compelled:

- to be seekers of Truth
- to develop a critical intellect
- to treat all with respect and dignity
- to lead lives of justice, integrity, and compassion.

MISSION STATEMENT

St. Francis Prep is a Catholic, college preparatory school in the Franciscan tradition. Our mission is to enable all students to develop and broaden their spiritual, intellectual, creative, emotional, social, and physical abilities. We value the unique contribution each person makes to the Prep community. Together, we create an environment filled with academic success, respect, integrity, and joy.

PHILOSOPHY

Saint Francis Preparatory School is a community that affirms its Catholic identity by the four "Golden Links" of Franciscan education, which holds that Spiritual, Intellectual, Social, and Physical values can be drawn from learning. We direct our educational efforts through academic programs and activities to enable students to value all of God's creation. Enlightened by the teachings of Jesus, we – the students, parents, faculty, staff, administration, and alumni – view the school as a means of encountering God and as a visible sign of our religious beliefs. In the words of Pope John Paul II, the mission of the Catholic school is "to communicate Christ." At the Prep, this is uniquely interpreted in the spirit of Franciscanism, which is to manifest peace, love, and respect for the individual, the community, and the environment.

At St. Francis Prep, we create an atmosphere where all can experience, communicate, and live the Gospel message. We challenge every individual to value learning, thinking, and critical inquiry. The teachers strive not only to instruct the students, but to inspire them. We provide opportunities for students to develop their academic potential and make college and career choices in concert with their personal desires and talents. We appreciate and respect the cultural diversity in the school and the New York metropolitan area while embracing our shared humanity. We encourage active citizenship in our democracy by increasing students' awareness of and involvement in local, national, and global issues.

This is the vision we mutually define. To work for these ends is a task of joy which brings fulfillment to the entire Prep community.

GRADUATE PROFILE

Our focus at St. Francis is the whole person. Therefore, Prep graduates strive to live the four Golden Links of Franciscan education.

SPIRITUAL

To continually experience a loving God in themselves and in others
To live the teachings of Jesus in the spirit of Francis of Assisi

INTELLECTUAL

To always value learning, thinking, and critical inquiry
To make responsible decisions in all aspects of their lives

SOCIAL

To recognize themselves as members of the world community
To respect and accept the unique contributions of each individual to society

PHYSICAL

To accept and nurture our bodies as gifts of the Creator.
To encourage stewardship of our planet

CAMPUS MINISTRY

Saint Francis Prep is committed to providing opportunities for students to grow in their faith. To achieve this goal, we have a Campus Ministry team consisting of three lay Campus Ministers, a Franciscan Brother, and one full-time Chaplain. We encourage students' responsible participation in the life, mission, and work of our community of faith. In this ministry, we offer students pastoral counseling, spiritual direction, liturgical celebrations, reconciliation services, prayer services, retreats, and service experiences. In coordination with other school clubs, students participate in many social justice activities and community projects. Campus Ministry activities are an integral part of the education of our students.

RETREATS: The retreat program is an essential part of the school's efforts toward Christian and Franciscan formation at St. Francis. Retreats allow students to deepen both their friendships and their spirituality. All sophomore students take part in a one-day retreat experience at Camp Alvernia in Centerport, Long Island. Optional retreats, based on age-appropriate themes and the journey of faith, are also offered each year for juniors and seniors. In addition, retreat experiences are offered to high school students through the Diocese of Brooklyn.

LITURGY: Daily Mass is offered at 7:00 a.m. each morning and on Mon. Wed., and Fri. at 8:00 a.m. in the school chapel. All are invited to participate. School-wide prayer services and Eucharistic liturgies take place throughout the school year. These are important features of the spiritual activities at St. Francis Prep. Some are celebrated with the entire class, while others are open to participation by the general student body. Our special liturgies take place at the following times:

- Opening of School (Mass of the Holy Spirit)
- The Feast of St. Francis
- Thanksgiving Liturgy
- Junior and Senior Advent Reconciliation Services
- Christmas Liturgy
- Ash Wednesday Liturgy
- Freshman and Sophomore Lenten Reconciliation Services
- Holy Week Prayer Service
- Junior Day Liturgy
- Graduation Liturgy

LEADERSHIP AND INVOLVEMENT OPPORTUNITIES

✠ **Liturgy Team**

The Liturgy Team works with the Campus Ministers planning and preparing various liturgies and prayer service during the school year.

Midnight Run

Student volunteers prepare a meal and sort donations of men's clothing and hygiene products for distribution to people living on the streets of Manhattan. Students and SFP chaperones meet at SFP in the evening and make appointed stops throughout the City coordinated by the Midnight Run organization. CM collects the following items throughout the school year: men's coats, jackets, sweaters, pants, new underwear, and socks.

Franciscan Youth Movement (FYM)

FYM plans service, social, and prayer activities building community in the spirit of St. Francis. Projects include: assisting children/teen charities, writing to our armed forces and elderly people at Christmas, collecting discarded ink cartridges and cell phones, visiting elderly people, planning party for Children's hospital, etc. Students meet at **2:45 and 4:00 p.m. every Wednesday** to plan activities. *We Are Teens Alive in the Spirit of St. Francis.*

✠ **Retreat Leaders**

Retreat leaders lead the Sophomore Retreat experience held at Camp Alvernia in Centerport, NY, on Tuesdays throughout the school year. Interviews for interested sophomores and juniors will be held in the Spring. Look for more information.

✠ **Extraordinary Ministers of Holy Communion**

Assist with the distribution of Holy Communion at school liturgies and communion services on a rotating schedule. Juniors must attend the Diocesan Training Day in May and obtain a letter of endorsement from your parish pastor.

✠ **Lector/ Reader**

Proclaim aloud designated readings and prayers of the faithful at school and morning masses and prayer services. Rotating schedule; practice required before upcoming liturgy or prayer service.

✠ **Liturgy Assistant**

Assist during school liturgies with variety of possible responsibilities: greeting students, handing out programs, preparing the altar, carrying the cross or candles in processions. No training necessary but practice required before upcoming liturgy or prayer service.

✠ **Liturgical Ensemble**

Sing at all school liturgies and prayer services. Practices are held Mondays **or** Wednesdays at 2:45 pm in W207.

✠ **Morning Prayer Leader**

Assist with leading daily prayer over the PA system at the beginning of the school day.

✋ **Presentation Soup Kitchen**

Volunteers assist with preparing and serving dinner at the Church of the Presentation in Jamaica, NY. Actual service at Presentation is from **4:00pm to 7:00pm** on Thursdays. Transportation provided by SFP. Only 4 volunteer spots are available each week.

✋ **Winter Homeless Shelter**

Every Wednesday evening from **January 13 through March 24**, 4 students will travel to St. Kevin's Parish in Flushing, NY, to assist with the parish's winter shelter. Students will prepare beds and meals and engage in conversation with the homeless persons who will be staying at the shelter that evening. **Leave SFP 6:30 pm – Return SFP 9:00 pm**

✋ **Franciscan Immersion Experiences**

These experiences provide sophomore, junior, and senior students powerful experiences of service, communal living, prayer, and learning about social justice. Past experiences have included teams serving in El Paso, TX, Camden, NJ, Baltimore, MD, and four years of assistance in the Gulf Coast.

DRIVER EDUCATION

The Driver Education program follows the basic New York State requirements. It consists of 24 classroom hours, 18 observation hours, and 6 hours behind the wheel. The course is available in the fall, spring, and summer. Registration periods are designated on the school calendar. Each session lasts 80 minutes. Students have one lecture period and one in-car period each week and must complete no less than 6 hours of actual behind-the-wheel experience. The passing grade in the program is 65%. Upon successful completion of the course, the student will receive an MV285 certificate (blue card) and a school certificate. All students applying to join the program should have a learner's permit in order to register. The basic fee for the course must be paid at the time for registration.

Each student is responsible to be present at each session. It is the responsibility of the student to notify the teacher of an anticipated absence for a morning session. The student should make every attempt to switch sessions with another student when absence is necessary. If it is necessary for a teacher to cancel a morning lecture or driving, the teacher will contact the student. All morning sessions will begin promptly at 7:00 a.m.

LIBRARY

The educational media center consists of the Bishop Reilly Memorial Library and the Audio-Visual Center. This complex, centrally located on the second floor, is available to students and faculty members on every school day from 8:00 a.m. to 4:00 p.m., except Friday when the library closes at 3:30 p.m. The library has a staff of four professional librarians, two assistant librarians, and a paraprofessional. Over 30,000 volumes, which represent the academic and recreational interests of the students and faculty, are housed in this area. There are 19 magazines available in the center. Two full text databases are accessible from school and home.

All students are automatically members of the library. They may check out library materials for three weeks. Reference materials must be used in the Reference Center located on the balcony of the Library.

One of the goals of the library staff is to provide whatever is necessary to further the spiritual, educational, and social improvement of the library users.

The AV collection of machines and software is handled by a professional librarian. The collection is organized so that all materials are easily accessible. All holdings of both the library and AV collection are listed in the card catalog or computers in the library.

Typewriters, four copy machines, fifteen computers, and a dollar bill change machine are located in the library. Internet access is also available in the Library. A conference room on the balcony is provided chiefly for faculty use.

COLLEGE CREDIT

St. Francis Prep has established a program with three local colleges that allows Prep students to be eligible to receive college credit for certain courses offered here.

Further information about the College Credit Program can be found on page 65.

ACADEMIC ADVISEMENT

As you prepare to decide which subjects to take next year, keep in mind that the quality of your courses and the grades you receive in them are each very important. All of your classes, along with your final course averages, are included on your academic record. Students should take the most challenging series of courses for which they are eligible.

If you are having difficulty in a class, do NOT let the problem escalate. Speak with your teacher. Obtain a tutor or a mentor (W-101). See your guidance counselor. Take the necessary steps to improve your grades.

It is important that students choose their courses carefully. Students should consider the following factors when choosing particular courses:

- requirements for a St. Francis Prep diploma;
- requirements for Regents endorsed and Advanced Regents diplomas;
- abilities, interests, and past achievements in various subject areas;
- over-all course load;
- anticipated plans for after graduation from high school.

In order to assist you with your decision-making, the next few pages contain general information and guidelines that will help you in the course selection process. Review and discuss all the necessary information and seek advice from your parents and teachers.

IMPORTANT: Be sure to read the course descriptions for each course you will be taking. Make sure you know all requirements and expectations for your courses. If you are uncertain about expectations, speak with teachers, chairpersons, and counselors. Do not sign up for a class merely because it “looks” or “sounds” good.

** It is always the best course of action to take the most appropriately challenging course work.

Reasons to Meet With Your Guidance Counselor Regarding Course Selection:

- Transfer students may have special issues to review
- To ensure that you understand the various requirements for your graduating class
- To see if you are eligible to earn a Regents Endorsed or Advanced Regents Diploma
- To review potential elective courses that apply to your college and career goals
- To assist you in looking at the pros and cons of the decisions that you need to make

Your guidance counselor is available for course selection advisement. During the months of January and February, counselors generally post appointment schedules on their office doors so students can sign up to meet with them. Please take advantage of this opportunity to learn as much as you can about course selection as it applies to your future goals.

I. MINIMUM REQUIREMENTS FOR A ST. FRANCIS PREP DIPLOMA

In order to graduate from St. Francis Prep, a student must fulfill requirements in two different categories:

- A. Core Course Requirements
- B. Competency Requirements

A. Core Course Requirements:

Core courses are those that all students are required to complete. During your four years at St. Francis Prep, students must complete the following course and unit requirements:

| | |
|----------------------------------|---------|
| Religion (4 years) | 2 units |
| English (4 years) | 4 units |
| Social Studies (4 units) | 4 units |
| Mathematics (3 years) | 3 units |
| Science (3 years)* | 3 units |
| Foreign Language (2 years) | 2 units |
| Fine Arts (2 or 3 courses) | 1 unit |
| Computer Science (1 course) | ½ unit |
| Health (1 course) | ½ unit |
| Physical Education (4 years) | 2 units |
| Electives and Other Requirements | 3 units |

TOTAL 25 units

* **PLEASE NOTE:** New York State requires **three (3) units of Science** taken in high school. The school requirement of ½ unit of Computer Science counts toward this 3-unit total. Students may use up to one (1) full unit of Computer Science toward fulfilling the required three (3) units of Science. These courses may be **any courses in the Computer Science** department or the **Art** courses that also fulfill the Computer Science requirement: **Art 2000, 2930, and 2940**. Business and Music computer classes **do not** fulfill the Science requirement.

Students register for the following courses as determined by their year level:

1. Present **Juniors** registering for **SENIOR** year: 6 credits total

| | |
|----------------------------------|-----------------------------------|
| Religion | (1/2 unit: two half-year courses) |
| English | (1 unit: one or two courses) |
| Social Studies | (1 unit: one or two courses) |
| Physical Education | (1/2 unit: one or two courses) |
| Electives and Other Requirements | (3 units) |

2. Present **Sophomores** registering for **JUNIOR** year: 6 credits total

| | |
|----------------------------------|------------------------------------|
| Religion | (1/2 unit: two courses or Service) |
| English | (1 unit: one course) |
| Social Studies | (1 unit: one course) |
| Math | (1 unit: one course) |
| Science | (1 unit: one or two courses) |
| Physical Education | (1/2 unit: one or two courses) |
| Electives and Other Requirements | (1 unit) |

PLEASE NOTE: Current Sophomores and Juniors should keep in mind that they must complete the Health course and a course in Computer Science sometime during Junior or Senior year. These two courses are taken as part of the total of the four (4) units in electives students are allotted during their Junior and Senior years. The remaining three (3) units are used to complete any other requirements.

3. Present **Freshmen** registering for **SOPHOMORE** year: 6.5 credits total

| | |
|--------------------|------------------------|
| Religion | (1/2 unit: one course) |
| English | (1 unit: one course) |
| Social Studies | (1 unit: one course) |
| Math | (1 unit: one course) |
| Foreign Language | (1 unit: one course) |
| Science | (1 unit: one course) |
| Physical Education | (1/2 unit: one course) |
| Art or Music | (1/2 unit: one course) |

Chart of Core Course Requirements

| Freshman | Sophomore | Junior | Senior |
|-----------------------|----------------------|-------------------------------------|--------------------|
| English (1) | English (1) | English (1) | English (1) |
| Social Studies (1) | Social Studies (1) | Social Studies (1) | Social Studies (1) |
| Religion (.5) | Religion (.5) | Religion (.5) | Religion (.5) |
| Phys. Ed. (.5) | Phys. Ed. (.5) | Phys. Ed. (.5) | Phys. Ed. (.5) |
| Math (1) | Math (1) | Math (1) | / |
| Foreign Language (1) | Foreign Language (1) | \ | / |
| Science (1) | Science (1) | Health (.5), Computer Science (.5), | |
| Art and/or Music (.5) | Art or Music (.5) | and Science (1) | |

PLEASE NOTE: All students must take three (3) units of Science in high school. Up to one unit of Computer Science, including Art 2000, 2930 and 2940, may be counted toward this 3-unit total.

B. Competency Requirements

In addition to the core course requirements (listed above), students must demonstrate a minimum level of competency in five different areas. Students demonstrate competency by earning at least the minimum scores on the appropriate Regents exams. The required exams are as follows:

- English
- Global History
- Math
- Science
- U.S. History and Government

IMPORTANT: Although in some cases a score of 55% on a Regents exam meets the minimum standard for competency, it is **not** considered to be a worthy goal for a St. Francis Prep student. Even a score of 65%, which meets the New York State standard for passing, is below the school’s passing grade of 75%. Regents exams serve as final exams for many courses and may contribute up to 20% of a student’s final grade in a course. Some colleges use Regents exam scores for determining admission and placement. Therefore, students are encouraged to strive toward attaining their highest possible grade on each Regents exam they take.

DIPLOMAS

Depending on scores on Regents exams and the courses taken, students may receive one of three types of diplomas. The requirements for each are listed below.

1. St. Francis Prep Diploma (Local Diploma)

- A. All core requirements listed above
- B. Score 55-64% on the five required Regents exams, with the following **exceptions**:
 - current **juniors** must have at least **four (4)** Regents exam scores above 65%.
 - current **sophomores and freshmen** must have all **five (5)** Regents exams scores above 65%.
- C. A score between 55% and 64% on any required exam qualifies a student for this diploma

2. St. Francis Prep Diploma with Regents Endorsement

- A. All core requirements listed above
- B. Score at least 65% on all five required Regents exams

3. St. Francis Prep Diploma with Advanced Regents Endorsement

- A. All core requirements listed above
- B. Score at least 65% on the five required Regents exams
- C. Students must score at least 65% on these additional Regents exams:
 - Comprehensive Foreign Language Regents*
 - Two additional Math Regents exams: altogether, students must pass Integrated Algebra 1, Geometry, and Algebra 2
 - A second Science Regents – one **must** be in **Biology** (Living Environment), the other in Earth Science, Chemistry, or Physics

* Students who pursue a qualified 5-unit sequence in Art or Music may substitute that sequence for the Foreign Language requirement. Check with Art or Music chairperson for details..

As you select your courses and plan for future years, it is essential that you speak with your parents, teachers, and counselors to select the most appropriate classes. Realize that the type of diploma you receive is dependent upon the courses you take and your scores on Regents exams. It is always the best course of action to take the most appropriately challenging course work.

Regents examination grades are very important for the following reasons:

- they are part of the student's course average;
- they appear on the student's transcript;
- they may fulfill specified competency requirements for the local St. Francis Prep diploma; and,
- SUNY, CUNY, and some private colleges use the Regents examination grades when making certain admissions and course placement decisions.

IMPORTANT: If you take and pass any Regents exams before attending St. Francis Prep, be sure to forward the grade to the school. Check with the Registrar's Office to make sure we have record of the grade.

II. ACHIEVEMENT, ABILITY, AND INTERESTS

After you have chosen the core courses that you must take for a local St. Francis Prep diploma, you have the opportunity to choose various electives. An elective program allows you to broaden your achievement, develop your abilities, and pursue your interests. It can constitute an important part of a foundation for future college study and career development.

It is important to be realistic in evaluating your achievement and ability. Your teachers and parents can be particularly helpful. What is your grade point average? What is your average in a particular subject area? What are your standardized test scores (SAT I Reasoning Test, SAT II Subject tests, Junior PSAT scores, etc.)? Choose courses for which you are qualified that will be challenging but not overwhelming.

Another important factor to consider when choosing elective courses is your area of interest. What program(s) of study and career paths do you hope to pursue after you graduate? The Career Center has many resources that can help you understand your own temperament and interests and the world of work. The following outline may be used as a guide. If you have particular needs that may modify these recommendations, speak with your parents, teachers, and counselor.

III. COLLEGE INFORMATION

It is important to research the colleges to which you expect to apply. What are the minimum requirements for admission? How competitive are the colleges and programs to which you expect to apply? What programs do they offer? What are the costs? This information is available on the web sites of individual colleges. There are various resource materials available to you in the College Office (N-201), Counseling Center (W-101), or counselors' offices. The guidance department is ready to assist you with any part of the college application process.

Juniors and Seniors are encouraged to attend the various conferences set aside for them (and their parents) during the school year. These include the College Fair, College Information Nights, Alumni Day, and Financial Aid Night.

These sessions give students and their parents the opportunity to receive information from college representatives, officials, and students who have first-hand experience with the various schools. Watch the announcements for a listing of particular college reps visiting St. Francis Prep on specified days.

In preparing for college, the most important prerequisite is to be realistic. You may have a dream college in mind, but you must also be sure that you have additional college choices that are realistic in terms of your high school background and marks.

Try to narrow down your college choices. College applications are expensive. If you are realistic, you will be able to apply to at least one college to which you know you will be accepted. Check your grades and your SAT scores against those required by the college of your choice and act accordingly.

Honors courses and Advanced Placement courses are very important if you hope to be accepted in any of the more prestigious or competitive colleges. The quality of your courses and the grades you receive in them very often determine whether you will be accepted.

All of this and other pertinent information is available on the Guidance Department page on the school's web site.

SAT II Subject Tests

Many colleges require students to take SAT II subject tests. It is most strongly suggested that students take tests on which they can reasonably expect to do well. Students should take the appropriate SAT II exams when they complete that particular course. The guidance department urges students to seek information from their counselors, subject teachers, and college profile guides when making this decision.

ART

Our objective is to foster the growth of all students in sensitivity, skill, and appreciation of the arts while developing perception, personal insight, and conceptual thinking. The Art Department provides a sequential program of instruction which integrates the four disciplines of art, art production, art history, and art criticism and aesthetics while fulfilling National and State standards. Each student is given fundamentals to enjoy the art experience and opportunity to develop on a more advanced level, either for self-fulfillment or to prepare and qualify for admission to a recognized art program in college to earn a B.F.A., B.A., or B.S. degree.

New York State 1-unit requirement for high school graduation is fulfilled by the end of 10th grade.

9th grade: Studio in Art I **AND** Introduction to Music (both ¼ unit and ½ year) **OR**

Advanced Studio in Art I (1/2 unit; full year) or Introduction to Performing Arts.

10th grade: Choice of three sophomore Fine Arts Courses: Studio in Fine Arts; Studio in Commercial and Technical Arts; or Performing Arts

FINE ARTS MAJOR: After a student has completed the school's fine arts requirement (one credit in the 9th and 10th grades), a Fine Arts major with NYS Regents accreditation is available to students who fulfill either a three- or five-unit sequence in the Fine Arts. Students must have satisfied the Regents requirement of an examination (locally designed) and portfolio presentation upon completion of senior year. **Sophomore and junior students interested in a Fine Arts major should meet with the Chairperson of the Art Department for course advisement.** Possible ART MAJORS with Regents accreditation are as follows:

| <u>AREA</u> | <u>SUGGESTED COURSES</u> |
|-------------|--------------------------|
|-------------|--------------------------|

Fine Arts (traditional Visual Arts)

Gr. 10 2720 (Art II: Studio in Fine Arts), 2094 (Soph. 2-Dim. Design)

Gr. 11 2750, 2790 (2090), 2800, 2840, 2906

Gr. 12 2770, 2870, 2900, 2826, 2840

Commercial Design (Graphic, Editorial, Advertising)

Gr. 10 2730 (Art II: Studio in Comm./Tech.Arts), 2094 (Soph. 2-Dim. Design)

Gr. 11 2810, 2790 (2090), 2750, 2800, 2906

Gr. 12 2930, 2840, 2770, 2826, 2940, 2750, 2960, 2990, 2860

Fashion Design and Illustration

Gr. 10 2740 or 2720, 2094 (Soph. 2-Dim. Design)

Gr. 11 2750, 2790 (2090), 2890, 2800, 2906

Gr. 12 2770, 2826, 2840, 2906, 2940

Architecture (Mech.Eng., Interior and Environmental Des.)

Gr. 10 2730 (Art II: Studio in Comm./Tech. Art), 2094 (Soph. 2-Dim. Design)

Gr. 11 2060, 2790 (2090), 2750, 2800, 2906

Gr. 12 2000, 2870, 2770, 2920, 2930, 2840, 2820, 2906

Media Arts (Photo, Video, Film, Animation)

Gr. 10 2730 (Art II: Studio in Tech./Comm. Art), 2094 (Soph. 2-Dim. Design)

Gr. 11 2840, 2790 (2090), 2860, 2800, 2906, 2750, 2810

Gr. 12 2960, 2990, 2770, 2940, 2900, 2826, 2930

Computer Graphics

Gr. 10 2730 (Art II: Studio in Tech./Comm. Art), 2094 (Soph. 2-Dim. Design)

Gr. 11 2060, 2790 (2090), 2930, 2750, 2840, 2810, 2800, 2906

Gr. 12 2000, 2940, 2770, 2906, 2840, 2826

Performing and Theater Arts

Gr. 10 2070, 2740 (Art II: Studio in Perf. Arts), 2094 (Soph. 2-Dim. Design)

Gr. 11 2080, 2980, 2060, 2790 (2090), 2890, 2990

Gr. 12 2080, 2920, 2826, 2960

CERTIFICATE OF ADVANCED STUDY IN ART

This certificate will be awarded to students in senior year upon completion of the following requirements:

- A) The student has completed the A.P. Art History course.
- B) The student has completed two years of A.P. Art Studio.
- C) The student has completed one year of study in Computer Graphics, CAD, or Web Page Design.
- D) The student has participated in and completed an approved outside art class in his or her area of study.
- E) The student has participated in one of the Art clubs actively for four years.
- F) The student is an active member of the National Art Honor Society.
- G) The student has an average of 90% or higher in all art courses.

Art 2000 (Period 8)

CAD (Computer Aided Design)

A one-semester course

This course is open to juniors and seniors who have taken or are registered for any one of these courses: Art 2060, 2790 (2090), 2930, 2094.

Art 2000 requires departmental approval.

This course uses the technology of the Vectorworks 12.5.1 software program to emphasize projects in three-dimensional design, including perspective drawing, elevations, and space planning, touching upon the fields of Architecture, Computer and Mechanical Engineering, Drafting, and Interior, Environmental, and Stage Design. The course fulfills the ½ unit computer requirement for graduation and counts as a ½ credit of Science. This course is available for college credit through Pace University.

Art 2060 (Period 8)

Mechanical/Architectural Drawing

A one-semester course

This course is open to juniors and seniors.

Art 2060 requires departmental approval.

This is a developmental course in mechanical drawing leading to sophisticated architectural drafting and three-dimensional model construction. Students will develop a portfolio applicable toward various degrees in Architecture, Engineering, and Interior, Environmental, Industrial, and Theater Design with projects that stress both the technical and conceptual. Architecture history and drawing from life will be included. Students are expected to purchase their own drafting supplies.

Art 2070 (Period 8)

Movement for Performers

A one-semester course

This course is open to freshmen, sophomores, juniors, and seniors.

Art 2070 requires departmental approval; no previous experience is necessary.

NOTE: Art 2070 does not fulfill the Fine Arts graduation requirement.

Through brief lectures, this course explores the origins and history of dance styles and techniques from primitive to contemporary times. Through movement sessions in a studio environment, technique analysis, anatomy, kinesiology, and training will be examined. Requirements include a dance critique, a research paper; and participation in the fall and spring dance and acting productions.

Art 2080 (Period 8)

Advanced Dance Technique

A one-semester course

This course is open to sophomores, juniors, and seniors who have taken Art 207 (Movement for Performers).

NOTE: Art 2080 does not fulfill the Fine Arts graduation requirement.

Art 2080 requires departmental audition for approval.

Through more focused and intense movement sessions, students will achieve higher technique and performance levels. This class will also advance the students' anatomical understanding. Dance composition and choreography studies will enable students to analyze and evaluate their own performance better. Requirements include a field trip to a professional performance allowing for student evaluation and appreciation; a dance critique;

participation in the Spring Arts Festival.

Art 2090 (Period 8)

Two-Dimensional Design

See Art 2790 for description/requirements. Art 2090 is available for college credit for those juniors and seniors who meet the requirements.

ART 2093 (Period 8)

Two-Dimensional Design: Sophomore Honors

A two-semester course

This course is open to sophomores.

Art 2093 requires departmental approval.

This is an advanced honors course for sophomore students referred by their instructor. See Art 2790 for description. Students will normally meet on Monday, Wednesday, and Thursday.

Art 2690

Art I: Introduction to Performing Arts

A two-semester course

This course is open to freshmen.

Art 2690 requires departmental approval.

This class is an introduction to the performing arts, giving students a greater appreciation and understanding of drama, film, dance, and music. Students will use a variety of artistic media, materials, and techniques in procedures in scenic design, costume, make-up, acting techniques, and improvisation. requirements include in-class performance, group projects, and theater critiques.

Art 2700

Advanced Studio in Art I, Honors

A two-semester course

This course is open to freshmen.

This course is a more advanced basic curriculum in art concepts and techniques for those 9th graders who have some background in art and are possibly interested in pursuing either the 3- or 5-unit Regents sequence in art.

Art 2710

Studio in Art I

A one-semester course

This course is open to freshmen.

This course is designed with the individual student's talent in mind. Students are taught to explore these talents while learning to appreciate and respect the varied talents of other students and artists. The course is organized to follow the elements in art to compose creative and conceptual works to communicate their ideas. Students will use a variety of artistic media, materials, and techniques in two- and three-dimensional formats.

Art 2720

Art II: Studio in Fine Arts

A two-semester course

This course is open to sophomores.

Art 2720 requires departmental approval.

This course is a continuation of the Studio in Art I course with a concentration in the traditional Fine Arts areas of drawing, sculpture, painting, and printmaking in an Art historical context. Students will build on their knowledge of the elements of Art and continue with the principles of design. Students will continue to use a variety of artistic media, materials, and techniques in two- and three-dimensional formats.

Art 2730

Art II: Studio in Technical and Commercial Art

A two-semester course

This course is open to sophomores.

Art 2730 requires departmental approval.

This class is a continuation of the Studio in Art I with a concentration on the commercial and technical arts such as architecture, interior design, photography, graphic design, advertising, computer graphics, animation, and film. Students will build on their knowledge of the elements of Art and continue with the principles of design. Students will continue to use a variety of artistic media, materials, and techniques in two- and three-dimensional formats.

Art 2740

Art II: Performing Arts

A two-semester course

This course is open to sophomores.

Art 2740 requires departmental approval.

This class is a continuation of Art 2690 (Intro. to Performing Arts), giving students a greater appreciation and knowledge of acting, dance, music, film, entertainment business, and audition process. Students will build on their knowledge of the elements of Art and continue with the principles of design. Students will continue to use a variety of artistic media, materials, and techniques through more advanced acting skills and improvisation. Projects will include scenic studies, small set designs, and on-camera techniques. The final project will incorporate all skills learned in production of a music video.

Art 2750

Drawing I

A one-semester course

This course is open to juniors and seniors who are registered for or have taken Art 2790 (2090).

Art 2750 requires departmental approval.

This class is an introduction to the materials and techniques of drawing. Subjects will include still life and portraiture, cartooning, and illustration. Rendering mostly from observation and some photo reference will expose the students to various approaches to drawing. The course is offered for college credit through St. John's University.

Art 2770

Drawing from Life

A one-semester course

This course is open to juniors and seniors who have taken or are registered for Art 2790 (2090).

Art 2770 requires departmental approval.

The figure drawings from life completed in this course will enhance a student's portfolio for all possible Visual Art college admission requirements. Projects include traditional Fine Arts assignments, such as anatomy, foreshortening, and portraiture in pencil, charcoal, chalk, pastel, colored pencils, collage, sumi ink, and fingerpaint. . A small fee will be collected for daily student models.

Art 2790

Two-Dimensional Design

A one-semester course

This course is open to juniors and seniors.

Art 2790 requires departmental approval.

The course will give the student a working knowledge of two-dimensional composition in paint, pencil, and collage as applicable to all visual and performing arts bachelor program admission requirements. Students are expected to purchase a variety of basic Art materials and tools. The course is offered for college credit through St. John's University.

Art 2800

Painting

A one-semester course

Art 2800 is open to juniors and seniors who have taken or are registered for Art 2790 (2090) and 2750.

Art 2800 requires departmental approval.

This course is an introduction to the techniques of color and painting. Subjects will include still life, landscape, portrait and figure, from abstract to realistic. Completed paintings will provide students with portfolio pieces.

Art 2810

Graphic Design

A one-semester course

This course is open to juniors/seniors who have taken or are registered for Art 2790 (2090).

Art 2810 requires departmental approval.

This course emphasizes creative and technical ability in graphics and layout techniques. Projects relate to the field of advertising and editorial design such as logotypes, posters, packaging graphics, and corporate identity programs in traditional and digital media.

Art 2826

Advanced Placement Art History

A two-semester course

This course is open to juniors and seniors.

Art 2826 requires departmental approval. NO prerequisites.

This survey in Art History explores the various historical movements in art, architecture, and the applied arts from primitive to the present. Class time will be divided among slide presentations, film and video viewing, lecture, discussion, and field trips to various N.Y.C. fine arts museums. The Advanced Placement Exam will be offered at the conclusion of the course; the course is offered for six college credit through St. John's University.

PLEASE NOTE: Art 2826 (Art History) satisfies the 1 unit senior Social Studies requirement for 3- or 5-unit Art Major students. See Mr. Antinori or Ms. Schaefer for details.

Art 2840

Photography

A one-semester course

This course is open to juniors and seniors who have taken or are registered for Art 2790 (2090).

Art 2840 requires departmental approval.

This course explores the creation of art through photography. The use and care of photographic equipment and the darkroom will be covered. Students will learn how to shoot, develop, and print their own black and white film through hands-on experience, field trips, historical studies, and experimental techniques. Projects will be completed manually and digitally. Required darkroom time will be divided between class time and students' free periods. The course is offered for college credit through Pace University.

PLEASE NOTE: Students **must** have their own 35 mm SLR camera (with full manual overrides) and should expect to purchase a large part of the supplies needed.

Art 2860

Animation

A one-semester course

This course is open to juniors and seniors who have taken or are registered for Art 2790 (2090).

Art 2860 requires departmental approval.

The course introduces students to all basic forms and techniques of animation from flip books through computer utilization. Tactile projects will be correlated with the history of animation. A knowledge of cartooning and video or film production is helpful but not mandatory.

Art 2870

Three-Dimensional Design (Sculpture)

A one-semester course

This course is open to juniors and seniors.

Art 2870 requires departmental approval.

This course gives the student a working knowledge of two- and three-dimensional composition. This advanced elective will utilize the principles of design. A sequential format of two- to three-dimensional projects will introduce the student to a variety of techniques and media, from non-objective to realistic.

Art 2890

Fashion Design

A one-semester course

This course is open to juniors and seniors who have taken or are registered for Art 2790 (2090).

Art 2890 requires departmental approval.

This course is highly diversified. Students will interpret design in a variety of ways using principles of design and elements of art to compose works based on a yearly project and theme. Students will learn the fundamentals of sewing and create 2-3 designs that will be used in the Arts Festival Fashion Show. Participation in the Arts Festival Fashion Show is mandatory and will be a part of the student's final grade.

Art 2906

Advanced Placement Art Studio

A two-semester course

This course is open to juniors and seniors who have taken or are taking Art 2790 (2090) **and** two of the following classes: Art 2750, 2770, 2800, 2840, 2870.

Art 2906 requires departmental approval. Students taking this course must be pursuing a 3- or 5-unit sequence in Art.

A.P. Art Studio is an in-depth course in the visual arts. It is designed for students who are seriously interested in the practical experience of Art. Students will work two days after school and independently. With the guidance of the supervising teacher, students will focus on a portfolio area: drawing, two-dimensional, or three-dimensional. In place of taking an examination, students submit portfolios for evaluation at the end of the course. This course is taken for credit above the required 6 credits.

Art 2920

Theater Design and Production

This course is open to juniors and seniors who have taken or are registered for one of the following: Art 2790 (2090), 2060, 2000, 2740.

Art 2920 requires departmental approval.

This course is an advanced art elective for students interested in pursuing a Bachelor Degree in Fine arts and Performing Arts. It offers a hand-on approach in conjunction with the history of technical theater. Projects will include set design (carpentry and painting), costuming, stage make-up, and lighting assignments. An overview of box office responsibilities, publicity, scheduling, pre-production considerations, and management will also be examined. Requirements include the following: a field trip to a professional performance allowing for student evaluation; a technical theater evaluation; participation in the Fall and Spring stage productions, including the Spring Musical and the Spring Arts Festival

Art 2930

Computer Graphics

A one-semester course

This course is open to juniors and seniors who have taken or are registered for Art 2790 (2090). Art 2930 requires departmental approval.

The course deals with the classic issues of art through the contemporary medium of computer graphics. Students will learn how to utilize the Adobe Creative Suite 4 programs to create computer-generated images for both fine and commercial art application. Previous computer skills are not required. The course is offered

for college credit through Pace University.

The course fulfills the ½ unit computer requirement for graduation and counts as a ½ credit of Science.

Art 2940

Web Page Design

A one-semester course

This course is open to juniors and seniors who have taken or are taking Art 2090 or 2790. Art 2940 requires departmental approval from the departmental chairperson.

This course is designed to provide a basic instruction in Web Page design using *HTML (Hypertext Markup Language)* Code, Flash 4.0, and Adobe Creative Suite 4 software programs. Basic principles and concepts of design, coding, and linking will be covered. Students will be expected to invest time outside class to complete assignments and projects. The course is offered for college credit through Pace University.

The course fulfills the ½ unit computer requirement for graduation and counts as a ½ credit of Science.

Art 2960

History of Cinema

A one-semester course

This course is open to juniors and seniors.

Art 2960 requires departmental approval. NO prerequisites.

Cinema History is a course offered to students interested in film, video, drama, or communications. Students will view classic and contemporary American and foreign films to analyze their structure, concept, and appeal. Weekly weekend video rentals and field trips to various current films will be required. Evaluation and feedback will be through submission of weekly film analysis reviews.

Art 2980

Acting

A one-semester course

This course is open to juniors and seniors.

Art 2980 requires departmental approval.

Acting is an advanced art elective for students interested in pursuing a Bachelor's Degree in Performing Arts or Communication. Improvisation, scene study, voice training, acting techniques, and body awareness will be introduced in conjunction with theater history. Requirements include the following: a field trip to a professional performance allowing for student evaluation and appreciation; a theater critique; participation in dance and acting stage production (Fall) or Spring Arts Festival.

Art 2990

Introduction to Film, Video, and Digital Production

A one-semester course

This course is open to juniors and seniors who have taken or are registered for Art 2790 (2090).

Art 2990 requires departmental approval.

This course will enable students to develop a working knowledge of basic film-making including script development, story boarding, camera utilization, and digital editing through the production of several video shorts. All equipment will be supplied, and the iMovie software program will be utilized. Completed films will be premiered in a Student Film Festival.

Art 2930 (Computer Graphics), Art 2940 (Web Page Design), and Art 2000 (CAD) satisfy the computer credit graduation requirement and count toward 1 of the 3 units of Science.

BUSINESS

Because business is such an important aspect of American life, preparation for living and working in a business world is provided for all students. Basic courses are offered to develop knowledge, skills, habits, attitudes, and ideas that are necessary for a successful beginning and advancement in business. The purpose of electives in business is to provide an opportunity for students to form a basis for further study in college.

All Business courses require pre-registration. Pre-register early because some classes have limited enrollment.

BUS 4410

Academic Keyboarding

A one-semester course

This course is open to juniors and seniors.

The course is designed to develop alphabetic as well as numeric keyboarding skills needed for academic and business use. Students will increase their typing speed and accuracy by learning to type without looking at the keyboard. Exercises include academic papers, business letters, memoranda, and resumes.

BUS 4420

Business Communications

A one-semester course

This course is open to juniors and seniors.

This course seeks to develop oral and written communication skills necessary for success in today's business environment. The importance of nonverbal communication will also be emphasized. Students will learn to conduct business meetings, create PowerPoint presentations, improve their negotiation skills, enhance their resume writing skills, draft business correspondence, and become familiar with office protocol. Common hiring procedures in today's marketplace will be addressed, and students will participate in mock interviews. Legal rights and obligations of the employer and employee will be defined. Workplace discrimination and methods of addressing this problem will be discussed.

BUS 4430

Business Law

A two-semester course.

This course is open to juniors and seniors.

This course is designed to teach students their rights and obligations in everyday business transactions and to provide students with a basic understanding of the law as a code of conduct for society. Students will study the major legal principles governing contracts, negligence, business crimes, product liability, and insurance. Students will be required to complete final research project.

BUS 4440

Business Computer Applications

A one-semester course

This course is open to juniors and seniors.

This course is designed to give students a basic, working knowledge of several commonly used business applications in the Microsoft Office Suite, including Word, Excel, PowerPoint, and Access. Students will become acquainted with the interrelationships between and among information, software programs, business activities and business systems.

IMPORTANT: This course **fulfills** the St. Francis Prep ½ unit computer requirement for graduation. It does **not** satisfy the State Science requirement. Students must pre-register for this class.

BUS 4490

Accounting I

A two-semester course

This course is open to juniors and seniors.

This Course provides students with an introduction to basic accounting concepts and teaches students to manually proceed through the accounting cycle and prepare financial statements. The goal of this course is to give students basic accounting skills that can be utilized in real world, for-profit business situations. The importance of ethics and the impact of unethical accounting on the business world and the individual investor will be explored. A final comprehensive examination will be given at the conclusion of the course.

COMPUTER SCIENCE

The objective of the Computer Science program at St Francis Prep is to offer students the opportunity to explore and develop an understanding of Computers in the frame of electronics, development, and theory. The Courses offered are all introductory courses in the topics of computer science and require no prior knowledge. All the courses offered by the department provide an opportunity for students to form a basis for further study in college.

PLEASE NOTE: All Computer Science classes fulfill the computer science graduation requirement. They may also be used to fulfill up to 1 unit of the 3 required credits in Science.

All Computer Science courses require pre-registration. Pre-register early since some courses have limited enrollment.

Comp. Sc. 0020 (Period 8)

Introduction to C# Programming

A one-semester course

This course is open to juniors and seniors.

The objective of this course is to introduce the basics of the C# programming language. C# classes are programmed to meet in the Computer Lab. Students are exposed to programming in both console applications and object-oriented windows programs, much like the popular software packages that exist today. Students will be instructed in program logic, design, and language constructs and will be required to participate actively in class. Assignments will require programming in the Computer Lab outside class time. A final portfolio assessment will count as 20% of the final grade.

Comp. Sc. 0040 (Period 8)

Computer Electronics

A one-semester course

This course is open to juniors and seniors.

This course is designed to provide a basic and practical knowledge of electronic concepts utilized in digital computer systems. It covers the theory and practical application of D.C. and A.C. current, Resistance, Capacitance, Oscillation, Inductance, Rectification, and Semi-conductors (Diode and Transistor). Students will become familiar with and recognize basic electronic components and their systems of measuring values and their interaction within simple circuits. Interpretation of electronic schematic diagrams will be part of the process. This course is recommended as a foundation for Digital Switching and Logic (0080). A final portfolio assessment will count for 20% of the final grade.

Comp. Sc. 0360

Introduction to Artificial Intelligence

A one-semester course

This course is offered to juniors and seniors

This course is an introduction to Artificial Intelligence, which is an integral part of the computer science curriculum. In this course, students will learn how theory and applications complement each other. By integrating theory with a fully functional means of applying that theory to real-world situations, students will gain an appreciation for the role played by Artificial Intelligence in today's world. Students will be introduced to the topics of Artificial Intelligence with a focus on terminology, theory, uses, and influence of Artificial Intelligence on modern problems. The course will reflect some of the modern questions around Artificial Intelligence and the perceptions of it in popular culture, modern problem solving, and current uses. The course will also discuss the ethical questions surrounding the use and manipulation of Intelligence in the environment of computer science. The classroom discussions will include lecture and video presentations about the perceptions and uses of Artificial

Intelligence. A final portfolio assessment will count for 20% of the final grade.

Comp. Sc. 0390

Introduction to Robotics

A one-semester course

This course is open to juniors and seniors.

The objective of this course is to introduce the basic concepts of robotic technology and to teach the logical skills needed in planning, designing, and building simple robotic devices. The course will use classroom sessions to teach concepts and will involve hands-on experience with robotic device kits and group projects. Logical thinking will be required in the planning and simulation sessions prior to actual robot construction. Students will be encouraged to deal with more advanced concepts. Suggested experience, but not required, is Comp. Sc. 0040 or Comp. Sc. 0380, or both.

Comp. Sc. 0480

Introduction to C# Programming

A one-semester course

This course is open to juniors and seniors.

Course content and scope is the same as C# (Period 8). Please see description for Comp. Sc. 0020 for details.

ENGLISH

The English courses fulfill St. Francis Prep's mission as a college preparatory school by providing students with the essential skills vital for success in higher education: vocabulary and grammar development, reading comprehension, effective writing, literary analysis, and study techniques.

Freshman Year

Eng. 6100

English 9, Honors

A two semester course

This course provides an intensive study of high school language-arts. The curriculum builds on the reading, writing, listening, and speaking skills which the students mastered in their grammar, junior high, middle, and intermediate schools. The major areas of concentration include introduction to literary genre and analysis, grammar and composition, vocabulary, and study skills.

Eng. 6100 requires departmental approval. Students enter this course based on their performances on the high school entrance examination, in their seventh and eighth grade language-arts classes, and on an essay administered by the English department.

Eng. 6120

English 9

A two semester course

This course presents a study of high school language-arts. The curriculum builds on the reading, writing, listening, and speaking skills which the students studied in their grammar, junior high, middle, and intermediate schools. The major areas of concentration include introduction to literary genre and analysis, grammar and composition, vocabulary, and study skills.

This course is required of all freshmen, except those placed in English 9, Honors.

Sophomore Year

Eng. 6200

English 10, Honors

A two semester course

This course provides an intensive continuation of the development of language-arts skills, reading comprehension, and literary analysis that began in English 9. Students are challenged by more advanced reading and writing assignments which mature their facility with language and with analyzing different literary genres. Although much of the literature of the curriculum is drawn from British authors, other national texts may be included. The curriculum also includes grammar, composition, vocabulary, and PSAT/SAT preparation.

Eng. 6200 requires departmental approval. Students enter this course based on their performances in freshman English. Students must achieve at least a 93% average, exhibit superior writing skills during the academic year, and obtain the recommendation of their English 9 teacher to apply for departmental approval. Students must also perform well on an essay administered and graded by the English department; teachers will announce the time and place where students must sit for the essay.

Eng. 6220

English 10

A two semester course

This course continues the development of language-arts skills, reading comprehension, and literary analysis that began in English 9. Students are challenged by more advanced reading and writing assignments which mature their facility with language and with analyzing different literary genres. Although much of the literature of the curriculum is drawn from British authors, other national texts may be included. The curriculum also includes grammar, composition, vocabulary, and PSAT/SAT preparation.

This course is required of all sophomores, except those approved for English 10, Honors.

Junior Year

Eng. 6306

Advanced Placement English in Language and Composition

A two semester course

As the junior honors class, this course is designed for advanced students who have exhibited a high degree of interest and accomplishment in their English studies at St. Francis during their freshman and sophomore years. This course presents an intensive survey of American literature from its beginnings to the present. Through chronological and thematic approaches, students study the significant texts of the major areas of American literature: Puritanism, Romanticism, Transcendentalism, Realism, Modernism, and Post-Modernism. Students focus on mastering their expository writing skills, especially the literary essay. The curriculum also includes grammar, vocabulary, and PSAT/SAT preparation. All junior students take the New York State Regents exam in June.

Eng. 6306 requires departmental approval. Students enter this course based on their performances in sophomore English. Students must achieve at least a 93% average, exhibit superior writing skills during the academic year, and obtain the recommendation of their English 10 teacher to apply for departmental approval. Students who currently are registered in Eng. 6220 must also perform well on an essay administered and graded by the English department; teachers will announce the time and place where students must sit for the essay.

PLEASE NOTE: Students in this course may sit for the Advanced Placement Examination in English Language and Composition upon the recommendation of the teacher. The course includes preparation for successful achievement on the exam. This is the only way to take this A.P. Exam in English; students in other English courses may not sit for the exam.

Eng. 6320

English 11

A two semester course

This course presents a survey of American literature from its beginnings to the present. Through chronological and thematic approaches, students study the significant texts of the major areas of American literature: Puritanism, Romanticism, Transcendentalism, Realism, Modernism, and Post-Modernism. Students focus on mastering their expository writing skills, especially the literary essay. The curriculum also includes grammar, vocabulary, and PSAT/SAT preparation. All junior students take the New York State Regents exam in June.

This course is required of all juniors, except those students approved for Advanced Placement Language and Composition.

Senior Year

Seniors are required to take one (1) unit in English. This requirement may be fulfilled by taking either Advanced Placement English in Literature and Composition or two half-year courses. Students may **NOT** register for more than the one-unit requirement.

PLEASE NOTE: All students must list alternates for English courses. Scheduling conflicts may necessitate assigning students to alternate classes.

Eng. 6506

Advanced Placement English in Literature and Composition

A two semester course

As the senior honors class, this course is designed for advanced students who have exhibited a high degree of interest and accomplishment in their English studies at St. Francis. A.P. English focuses on the analysis of poetry, fiction, and drama from the Western canon. In addition to participating in intelligent class discussion, students are required to respond to complex essay questions that ask them to connect style and meaning. Students must apply their knowledge of figurative language, narrative, and dialogue to the works in each genre and write essays that require coherent theses, specific detailed references, and consistent focus.

Eng. 6506 requires departmental approval. Students enter this course based on their performances in junior English. Students must achieve at least a 93% average, exhibit superior writing skills, and obtain the recommendation of their English 11 teacher to apply for departmental approval. Students who currently are registered in Eng. 6320 must also perform well on an essay administered and graded by the English department; teachers will announce the time and place where students must sit for the essay

PLEASE NOTE: All students in this course sit for the Advanced Placement Examination in English Literature and Composition. The course includes preparation for successful achievement on the exam. This is the only way to take the A.P. Exam in English; students in other English courses may not sit for the exam.

Half-Year Courses (One-Semester Courses)

You must register for two of the following course to fulfill your one unit requirement in English

Eng. 6610

Drama

A one semester course.

The course examines representative plays of Western drama from its beginnings in ancient Greece to the contemporary theater of the United States and England. The approach is historical and thematic. Issues we will consider include drama as text and performance, stagecraft, playwriting, and theater criticism.

Eng. 6620

World Literature

A one semester course

This course considers the literature of the Western and non-Western canon, exclusive of England and the United States. The curriculum includes reading and analysis of the great writers and works of Continental Europe, South America, Russia, Asia, and Africa from civilizations past and present. Students will particularly focus on the texts as products of the culture in which they were written and the effect of reading works in translation.

Eng. 6630

Gothic Literature

A one semester course

This course fosters an understanding of American “Gothic” literature: the study of the mysterious and grotesque. We will trace the origins and development of Gothic literature in Europe, but will concentrate on American fiction and poetry. Some of the texts include the work of Edgar Allan Poe, Joyce Carol Oates, Flannery O’Connor, Anne Rice, and Stephen King. Students will also explore Gothicism in popular culture.

Eng. 6640

Shakespeare

A one semester course

The course is a study of Shakespeare's dramatic canon. Students will read representative plays from the bard’s comedies, tragedies, and histories. Students also focus on how the philosophical, religious, political, and cultural trends of the Renaissance and the Reformation shaped Shakespeare's vision. The Elizabethan dramatic milieu in which Shakespeare flourished is also a major topic of discussion. Students must be committed to reading dramatic verse in early modern English.

Eng. 6680

Fiction

A one semester course

This course is an examination of prose fiction. Students will read and analyze prose fiction in all its forms: the short story, the novella, and the novel. Students study the historical development of prose fiction, especially the major British, American, and European Continental writers who significantly have advanced the form.

Eng. 6690

Poetry

A one semester course

This course examines how poems create their effects on readers. Students study how a poem begins as a “spontaneous overflow of powerful feelings” in the poet and finishes as evocative language on the page. Students analyze how the poet takes his source of inspiration, crafts it into imagery, and gives insight into human experience. The course includes poems from the entire history of English verse.

Independent Studies

Eng. 6910

This course is open to seniors.

PLEASE NOTE: This course may only be taken in addition to the regular full unit of senior English.

Independent Studies allows the senior student the opportunity to take a course outside the traditional classroom setting. In consultation with an approved mentor from the English department, the student examines a particular literary period, author, titles, or themes not covered in other senior course offerings. Course work includes an extensive reading list and successful completion of the course project – a fully documented research paper or final project. A student may also work in creative writing. The course is designed for highly-motivated students able to work independently while also taking direction from a faculty member.

PLEASE NOTE: Students who take this higher level course must have exhibited significant accomplishment in their English studies at St. Francis. To register for this course, you must see the chairperson of the English department.

FOREIGN LANGUAGE

The study of foreign language requires a developmental approach and implies a progressive acquisition of linguistic skill. The values gained from learning a language will be related to the amount of time and effort devoted to it. The study of another language usually brings about a gradually expanding and deepening knowledge of the country, people, geography, history, social institutions, and culture of the people who speak the particular language. As a consequence, we acquire a better perspective on our own culture.

Span. 3100

Spanish I, Natives

A two-semester course

This course is open to freshmen who are native speakers.

Span. 3100 requires departmental approval.

The course is designed to encourage the native speakers to develop a more intensive knowledge of their native tongue by broadening their grammatical, reading, listening, and speaking skills in an accelerated program.

Span. 3110

Spanish I

A two-semester course

This course is open to freshmen who have had no previous instruction in the language or who are not prepared to handle Span. II and juniors and seniors who wish to begin a second language.

This introductory Spanish course focuses on developing understanding, speaking, reading, and writing skills.

Span. 3190

Spanish II, Natives

A two-semester course

This course is open to sophomores who have completed Spanish I for natives.

Span. 3190 requires departmental approval.

This course seeks to increase competency and understanding of the skills developed in Course I. The contributions of the Spanish World and its culture will be emphasized. The Spanish III Regents is taken in June.

Span. 3130

Spanish II

A two-semester course

This course is open to students who have completed Spanish I.

This is a continuation of the first year of foreign language study in which the four language skills of understanding, speaking, reading, and writing will be creatively used for communication, learning, and personal enrichment. The course will pursue a deeper understanding of the basic behavioral and cultural patterns of other lands.

Span. 3140

Spanish III, Honors

A two-semester course

The course is open to students who have completed Spanish II.

Span. 3140 requires departmental approval.

Students will be required to take a departmental exam.

This intensive course is designed for students who have acquired a solid foundation in Spanish levels I and II and have evidenced special ability in the language. Students will increase their competence in the basic skills

as they acquire knowledge about daily life in the Spanish-speaking world. The Spanish III Regents is taken in June.

Span. 3150

Spanish III

A two-semester course

The course is open to students who have completed Spanish II.

This course will seek to increase competence in understanding the language, to further the ability to speak it correctly, to develop writing skills, and to improve students' ability to read with direct comprehension. The Spanish III Regents is taken in June.

Span. 3160

Spanish IV

A two-semester course

This course is open to students who have completed Spanish III or Spanish II, Natives.

Span. 3160 requires departmental approval.

Enrollment will be limited.

This course is designed to broaden and deepen knowledge of the Spanish-speaking world and the Spanish language; it is designed for enthusiasts of culture and language. The class includes grammar review and vocabulary expansion on an "as-needed" basis. Students will view popular Spanish-language films and explore the world of literature through a brilliant Spanish novella.

PLEASE NOTE: The class is conducted in Spanish.

Span. 3176

Advanced Placement Spanish Language

A two-semester course

This course is open to native Spanish students who have completed Spanish II, Natives, or Spanish III and to exceptionally able non-native students who have completed Spanish III.

Spanish 3176 requires departmental approval and a 90% average. Students may be required to take a written test. Enrollment will be limited.

The Advanced Placement program in Spanish Language is intended for those who have chosen to develop their proficiency in all four language skills: listening, speaking, reading, and writing. The culture, customs, and traditions of the Spanish-speaking world will be explored through literary selections. Students must take the Advanced Placement Language examination in May.

Span. 3182

Intermediate Spanish Conversation

A two-semester course

This course is open to students who have completed Spanish III. Native Spanish speakers may not take this class.

Span. 3180 requires departmental approval, a 90% average, and a willingness to converse in Spanish.

This course will be limited to 25 students per class.

This is a course designed to develop audio-lingual skills in the Spanish language. The focus will be on speaking and understanding the language used in daily communications and in developing techniques and vocabulary for conversation and discussion. An exploration of the cultural background, customs, and traditions of the Spanish-speaking world will be offered through short literary selections. This course is available for college credit through St. John's University.

Fren. 3210

French I

A two-semester course

This course is open to freshmen who have had no previous instruction in the language or who are not prepared for French II and for juniors and seniors who wish to begin a second language.

The course is an introduction to French. The main focus is to develop understanding, speaking, reading, and writing skills.

Fren. 3230

French II

A two-semester course

This course is open to students who have completed French I.

The course continues development of the four language skills of understanding, speaking, reading, and writing by using them creatively for communication, learning, and personal enrichment. Developing deeper understanding of the behavioral and cultural patterns of other lands is a goal.

Fren. 3240

French III, Honors

A two-semester course

This course is open to students who have completed French II. Fren. 3240 requires departmental approval.

This course is designed to broaden the student's basic skills. Special emphasis will be placed on studying cultural aspects of the French-speaking world and promoting appreciation of French literature through the reading selections. Creative writing techniques, along with direct comprehensive skills in listening and reading, will be sharpened. The French III Regents is taken in June.

Fren. 3250

French III

A two-semester course

This course is open to students who have completed French II.

This course is designed to further the students' study of French. Particular emphasis will be placed on speaking, auditory comprehension and writing skills. French culture and customs will be examined for a greater appreciation of the French contribution to the world. The French III Regents examination is taken in June.

Fren. 3260

French IV

A two-semester course

This course is open to students who have completed French III

French 3260 requires departmental approval.

Improvement in the students' speaking, listening, reading and writing skills will be one of the major goals of this course. Literature, history, culture, and customs of the individual countries will be included. This course is available for college credit through St. John's University.

Ital. 3310

Italian I

A two-semester course

This course is open to freshmen who have had no previous instruction in the language or who are not prepared for Ital. II and for juniors and seniors who wish to begin a second language.

The course is an introduction to Italian. The main focus is to develop understanding, speaking, reading, and writing skills.

Ital. 3320

Italian II

A two-semester course

This course is open to students who have completed Italian I.

Special attention will be given to the four language skills of understanding, speaking, reading, and writing to provide personal enrichment and to aid in communication and comprehension. The course will pursue a deeper understanding of the basic behavioral and cultural patterns of other lands.

Ital. 3330

Italian III

A two-semester course

This course is open to students who have completed Ital. II.

This course aims to increase competency through improving the ability to speak on relevant topics and to attain direct comprehension when listening or reading. It also seeks to foster an appreciation of Italian literature and to enhance creative writing skills after the basics have been mastered. The Italian III Regents is taken in June.

Ital. 3350

Italian III, Honors

A two-semester course

This course is open to students who have completed Italian II.

Ital. 3350 requires departmental approval.

Students will be required to take a departmental exam.

This course is designed for students who have acquired a solid foundation in Italian levels I and II and have evidenced a special ability in the language. Students will increase their competence in listening, speaking, reading and writing skills, emphasizing aspects of daily life in the Italian-speaking world through group and individual work. The Italian III Regents is taken in June.

Ital. 3360

Italian IV

A two-semester course

This course is open to students who have completed Italian III.

Ital. 3360 requires departmental approval.

Enrollment in this class will be limited.

This course focuses on development of the students' ability to speak, understand, write, and comprehend the language. Students will discuss Italian artists, such as Michelangelo, Brunelleschi, Cimabue, and DaVinci; Italian writers, such as Petrarca, Dante, St. Francis, St. Thomas, Pavese, Pirandello, and Calvino; and Italian geography, including all 20 regions of northern, central, and southern Italy, Tuscany, and Rome. Students will also have debates, watch Italian movies, and discuss Italian-Americans in art, music, film, and literature. Grammar will be an essential part of the class. This course is available for college credit through St. John's University.

PLEASE NOTE: The class will be conducted solely in Italian; students must be able to converse in Italian well.

Ger. 3410

German I

A two-semester course

This course is open to freshmen who have had no previous instruction in the language or who are not prepared for Ger. II and for juniors and seniors who wish to begin a second language.

The course is an introduction to German. The main focus is to develop understanding, speaking, reading, and writing skills.

Ger. 3420

German II

A two-semester course

This course is open to students who have completed German I.

This is a continuation of the first year of foreign language study in which the four language skills of understanding, speaking, reading, and writing will be actively and creatively used for communication, learning, and personal enrichment. The course will pursue a deeper understanding of the basic behavioral and cultural patterns of other lands.

Ger. 3430

German III

A two-semester course

This course is open to students who have completed German II.

The course will sharpen the students' basic skills through expanded readings, conversation, and original writing. By studying the culture, students will gain greater understanding of the German people. The German III Regents is taken in June.

HEALTH AND PHYSICAL EDUCATION

The Health and Physical Education Department is designed to develop the physical, mental, and social skills necessary for the well-rounded individual. By exposing the students to a variety of individual, team, and dual sports and classroom instruction in Health education, we hope to stimulate an interest that can be continued for life. We also recognize the importance of encouraging students to become physically fit. This fitness will be attained in our classes which stress a healthful lifestyle: determining behavior risk factors, cardiovascular fitness, muscular strength, endurance, flexibility, and body composition. We hope that by graduation the students will have been directed toward lifelong physical activity that will aid in the maintaining of fitness throughout adulthood.

“The greatest wealth is health.” ~Virgil

FIRST AID, NUTRITION, AND HEALTH DO NOT SATISFY THE PHYSICAL EDUCATION REQUIREMENT.

Phys. Ed. 7010 (H Period)

Health

This section is open to seniors only: limited to 60 students.

Phys.Ed. 7010 requires pre-registration with the chairperson.

Selection will be done based on a lottery.

Please see Phys. Ed. 7910 for description.

Phys. Ed. 7910

Health

A one-semester course

This course, **required for graduation**, is open to juniors and seniors. Current sophomores who wish to take Health as juniors require pre-registration with the chairperson.

The topics covered in this course include: Alcohol, Communicable and Non-communicable Diseases, First Aid, Holistic Health, Mental Health, Substance Use and Abuse.

Phys. Ed. 7920

First Aid: Responding to Emergency

A one-semester course

This course is open to juniors and seniors.

P.E. 7920 requires pre-registration with the chairperson. **LIMITED** to 30 students

This is an elective course which does not fulfill health or physical education requirements. The American Red Cross (ARC), Advanced First Aid, Personal Safety, and Basic Life Support Courses are the basis for this study. At the conclusion of the course, ARC certificates are awarded if requirements are met. This course comprises development of practical knowledge and skills in prevention, symptoms, and initial care of numerous injuries and sudden illnesses, including Cardiac Arrest and Cardiopulmonary Resuscitation.

Phys. Ed. 7940

Nutrition

A one-semester course

This course is open to juniors and seniors.

P.E. 7940 requires pre-registration with the chairperson. **LIMITED** to 30 students.

This is an elective course which does not fulfill the physical education or health requirement. Nutrition will encompass the day in and day out choices that we make about food intake. It studies the proper eating of food for growth and development.

Students with a MEDICAL RESTRICTION or DISABILITY should consult the nurse or Dept. Chairperson before registering.

PLEASE NOTE: No Physical Education course may be repeated.

Phys. Ed. 7120

Physical Education 9

A two-semester course

This course is required of freshmen.

The course introduces the student to the various physical skills that develop coordination and dexterity: fitness, gymnastics, square dance, soccer.

Evaluating our freshman students according to the National Standards provides valuable information on each student's current fitness level. The fitness tests given annually September through November include the mile run (cardiovascular endurance), sit-ups for one minute (muscular endurance), sit and reach (flexibility), and push-ups for one minute (muscular strength).

Phys. Ed. 7220

Physical Education 10

A two-semester course

This course is required of sophomores.

This course builds individual and team-sports skills: basketball, volleyball, track and field, modern dance, lacrosse, and field hockey.

Phys. Ed. 7310

Advanced Physical Education I

A two-semester course

This course is open to juniors.

P.E. 7310 requires an invitation and dept. approval from the chairperson.

This course will include in the first half-year two periods of instruction and one period of lab class. In the second half-year, one period of instruction and two periods of lab classes are required. The lab involves assisting a freshman or sophomore physical education class. The course will fulfill the physical education requirements for the junior year. Upon successful completion of the course and with approval from the instructor, students may fulfill their senior year requirement in four lab periods of service work, two each semester.

Phys. Ed. 7610

Touch Football and Weight Training

A fall and spring semester course

This course is open only to junior and senior boys. If you have taken this course in junior year, you cannot repeat it.

Touch football teaches basic skills following the rules and terminology of football in game situations. Instead of tackling a player, the object is to touch the opponent. Weight training will be in the second quarter. Students will learn about the physical development of their body through the use of weights.

Phys. Ed. 7640

Speedball and Soccer

A fall semester course

This course is open to junior and senior boys. If you have taken this course in junior year, you cannot repeat it.

Speedball is a combination of soccer, basketball, and football. Soccer introduces the skills of passing, trapping, shooting, heading, and goal-tending. The weight room will also be used.

Phys. Ed. 7650

Basketball and Lacrosse

A fall semester course

This course is open only to junior and senior boys. If you have taken this course in junior year, you cannot repeat it.

This course uses team sports to incorporate running, hand-eye coordination, and cooperation in combination with advanced strategies and techniques.

Phys. Ed. 7660

European Handball and Self-Defense

A spring semester course

This course is open only to junior and senior boys. If you have taken this course in junior year, you cannot repeat it.

European Handball uses a combination of basketball and football skills in a team game. In Self-Defense, students will receive individual instruction and have team-building experiences while using safety equipment.

Phys. Ed. 7680

Advanced Physical Education II

A two-semester course

This course is open to seniors who have completed P.E.7310. P.E. 7680 requires departmental approval from chairperson.

Students in this class will assist teachers in the freshman and sophomore physical education classes. Students will have two classes of lab work each cycle. They will also have two classes of instruction each quarter with the time prearranged with the instructor at the beginning of the term. The course fulfills the physical education requirement.

Phys. Ed. 7710

Touch Football and Soccer

A fall semester course

This course is open only to junior and senior girls. If you have taken this course in junior year, you cannot repeat it.

Touch Football teaches basic skills following the rules and terminology of football in game situations. Instead of tackling a player, the object is to touch the opponent. Soccer will include the basic skills used: passing, dribbling, shooting, trapping, and heading. After a review of skills, students will then apply them in a game situation.

Phys. Ed. 7720

Girls' Lacrosse and Field Hockey

This course is open to junior and senior girls. If you have taken this course in junior year, you cannot repeat it.

Lacrosse teaches techniques of stick handling, scooping, over-the-shoulder throwing, cradling, and shooting. It will be taught in the first quarter. Field Hockey stresses the skills of stick and ball control. It enhances the skills acquired during sophomore year and develops into a team game.

Phys. Ed. 7780

Girls' Conditioning and Self-Defense

A spring semester course

This course is open only to junior and senior girls. If you have taken this course in junior year, you cannot repeat it.

Conditioning is designed to firm-up the body and increase overall physical well-being. The weight room will be used. In Self-Defense, students will receive individual instruction and have team-building experiences while using safety equipment.

Phys. Ed. 7790

Modern Dance and Aerobics

A spring semester course

This course is open only to junior and senior girls. If you have taken this course in junior year, you cannot repeat it.

Modern Dance employs the elements of ballet and jazz movements with emphasis placed on choreography. Aerobics draws on aspects of dance to improve the student's cardiovascular system, stamina, and endurance through vigorous routines set to music.

Phys. Ed. 7820

Tennis, Jogging, and Fitness Walking

A fall semester course

This course is open to juniors and seniors. If you have taken this course in junior year, you cannot repeat it.

Tennis will review all of the aspects of this sport, including the strokes, rules, and scoring. Jogging and Power Walking will improve the jogger's cardiovascular system. The importance of fitness will be stressed.

Phys. Ed. 7850

Paddleball and Golf

A fall and spring semester course

This course is open to juniors and seniors. If you have taken this course in junior year, you cannot repeat it.

Paddleball is a combination of tennis and handball. Golf provides instruction in all strokes of this sport.

Phys. Ed. 7860

Volleyball and Softball

A spring semester course

This course is open to juniors and seniors. If you have taken this course in junior year, you cannot repeat it.

Volleyball will be played using advanced techniques. Softball will be played after using two or three classes for instructional purposes.

Phys. Ed. 7870

Cardio-Kickboxing and Project Adventure

A one-semester course

This course is open to seniors only.

Phys.Ed. 7870 requires pre-registration with the chairperson. LIMITED to 150 students.

Cardio-Kickboxing is a workout program designed to improve strength, endurance, and flexibility by combining kickboxing skills with music. Project Adventure gives students an opportunity to participate in challenging activities that promote teamwork, trust, communication, and cooperation.

Phys. Ed. 7880

Tai Chi and Yoga

A one-semester course

This course is open to juniors and seniors.

P.E.7880 requires pre-registration with the chairperson. If you have taken this course in junior year, you cannot repeat it. LIMITED to 200 students

Tai Chi is fast becoming one of the most popular forms of fitness training in the world today, but it is not just about fitness. Tai Chi is an ancient Chinese "soft" Martial Art, a relaxation technique and an exercise for fitness. Yoga explores the ways to return the body to its natural state of flexibility. The course is designed to explore the physical and mental dimension of yoga for toning, relaxing, and stretching.

Electives Summary

| BOYS ONLY: | GIRLS ONLY: | MIXED: | SPECIALIZED: |
|------------|-------------|--------|----------------------|
| 7610 | 7710 | 7820 | 7310 - Jrs. |
| 7640 | 7720 | 7850 | 7680 – Srs. |
| 7650 | 7780 | 7860 | 7830 – Jrs. And Srs. |
| 7660 | 7790 | 7870 | |
| | | 7880 | |

PLEASE NOTE: For any courses that require pre-registration, students must see the chairperson during the period for pre-registration. Approvals will be posted by the East Gym office door after the pre-registration period has been completed.

MATHEMATICS

The Mathematics Department offers students a four-year Mathematics program that will enable them to pursue more advanced courses in college and also prepare them for future life situations. An honors program is offered for the higher ability student, culminating with Advanced Placement Mathematics or Calculus.

* **Requires Departmental Approval** means that there are specific qualifications for the various courses. Classroom teachers will explain these qualifications to the students.

All course selection forms must be signed by current Mathematics teacher.

IMPORTANT: Every Mathematics course requires the purchase of the Texas Instruments Graphics Calculator (T.I. 84+).

PLEASE NOTE: Students entering high school starting September 2007 are required to pass one Mathematics Regents exam in order to graduate from high school in New York State. The Regents exams are as follows:

Integrated Algebra 1

Integrated Geometry

Integrated Algebra 2.

The Regents exams are given in June of each year.

Math 5100

Integrated Algebra 1, Honors

A two-semester course

This course is open to ninth-graders.

Math 5100 requires departmental approval.

This course is for students with above average mathematical ability. It includes an in-depth study of the concepts of Algebra I as well as enrichment topics. Students take Algebra 1 Regents exam in June.

Math 5120

Integrated Algebra 1

A two-semester course

This course is required for ninth-graders.

This course integrates the various branches of mathematics presenting concepts both algebraically and geometrically. Included are topics from statistics, probability, and logic. Students take the Algebra 1 Regents exam in June.

Math 5130

Integrated Geometry, Advanced

A two-semester course

This course is open to ninth-graders who have completed a year of Algebra 1.

In order to advance to the second year of high school mathematics as a ninth-grader at St. Francis Prep, a student **MUST** take the Math placement exam that is given in May.

Math 5130 requires departmental approval.

This is a Regents course that integrates the various branches of mathematics. Included are topics from logic, mathematical systems, Euclidian geometry, analytic geometry, solutions of quadratic equations, and probability, permutations, and combinations. Students take the Integrated Geometry Regents exam in June.

Math 5200

Integrated Geometry, Honors

A two-semester course

This course is open to sophomores who have completed Math 5100 or Math 5120.

Math 5200 requires departmental approval.

This course is an Honors Regents course which includes the regular Geometry curriculum with optional topics. Students take the Integrated Geometry Regents exam in June.

Math 5220

Integrated Geometry

A two-semester course

This course is required for sophomores.

This is a Regents course that integrates the various branches of mathematics. Included are topics from logic, mathematical systems, Euclidian geometry, analytic geometry, solutions of quadratic equations and probability, permutation and combinations. Students take the Integrated Geometry Regents exam in June.

Math 5300

Integrated Algebra 2, Honors

A two-semester course

This course is open to students who have completed Geometry.

Math 5300 requires departmental approval.

This is an honors course for sophomores and juniors who have above average marks in Algebra and Geometry. This course includes the Regents exam test topics as well as some pre-calculus material. Students must take the Integrated Algebra 2 Regents exam in June.

Math 5320

Integrated Algebra 2

A two-semester course

This course is required for juniors who have not completed Algebra 2.

This is a Regents course. The topics of the course include algebra, linear equations, matrices, quadratic equations, logarithmic functions, trigonometry, and other related topics. Students take the Integrated Algebra 2 Regents exam in June.

Math 5370

Algebra 2A

A two-semester course

This course is open to juniors who have not completed Algebra 2.

Math 5370 requires departmental approval.

This course covers the Algebra 2 curriculum with the total integration of the graphics calculator. The course integrates the study of Algebra, Geometry, Trigonometry, and specific topics in logic, statistics, and probability.

PLEASE NOTE: This class is closed to further additions after February without the explicit approval of the Chairperson.

MATH ELECTIVES: Explicit requirements will be presented to students during class.

All Math electives may be taken for college credit.

Math 5400

Math Analysis, Honors (Pre-Calculus Honors)

A two-semester course

This course is open to juniors who have completed Algebra 2.

Math 5400 requires departmental approval.

This is an honors pre-calculus course which includes topics in advanced algebra, analytic geometry, functions, and other topics which are necessary background for the study of elementary calculus.

Math 5450

Math 12

A two-semester course

This is a pre-calculus course that is open to juniors and seniors who have completed Algebra 2.

Math 5450 requires departmental approval.

This course will include a thorough, mathematically mature approach to the basic concepts of algebra and geometry. It will provide an in-depth study of analytical geometry, functions, complex numbers, and polynomial equations with an introduction to polar coordinates, sequences, series, and limits. Thus, Math 12 serves as a foundation for the study of calculus. Supplementary topics will be included if the teacher chooses to lead the class into other areas of advanced algebra.

Math 5506

Advanced Placement Calculus, A.B.

A two-semester course

This course is open only to seniors who have had some pre-calculus or math analysis.

Math 5506 requires departmental approval.

This is a college level course which includes applications of differential and integral calculus. Students are required to take the Advanced Placement examination in May. Success on this exam could earn a student college credit or advanced placement, or both.

Math 5510

Calculus, Honors

A two-semester course

This course is open to advanced juniors and seniors.

Math 5510 requires departmental approval.

This course includes a study of pre-calculus topics. Emphasis is given to calculus, including differentiation and some integration. It is geared to the student who wants to take calculus, but does not want the advanced placement course or is not accepted for advanced placement.

Math 5520

Pre-Calculus

A two-semester course

This course is open to juniors and seniors.

Math 5520 requires departmental approval.

The course requires that students have taken Algebra 2. The course is designed for those who will study mathematics, science, and related fields in college. Areas covered are limits, conics, functions, parameter equations, polar coordinates, and elementary differentiation. All the essential background material needed for a college calculus course will be reviewed. If time permits, elementary integration will also be covered.

Math 5550

Probability and Statistics

A two-semester course

This course is open to seniors only.

Math 5550 requires departmental approval.

This course will include concepts of probability and descriptive inferential statistics, with an emphasis on the applications of statistics in modern life, including the fields of sociology, business, economics, ecology, education, medicine, psychology, and mathematics. The relationship between statistics, analytical thinking, and decision-making will be a major topic.

PLEASE NOTE: This course is closed after February.

MUSIC

The Music curriculum offers students an opportunity to broaden their cultural background and to prepare for college-level work. The music program is designed for three types of students: those who wish to fulfill their music requirement; those who have an interest in music and enjoy performing; and those who expect to major in music or music education in college.

CERTIFICATE OF ADVANCED STUDY IN MUSIC

The Certificate of Advanced Study in music will be awarded by the Music Department of St. Francis Prep upon completion (in senior year) of the following requirements.

- A) The student has completed three or more years of study in one of the department's performing ensembles (the same ensemble for 1.5 credits minimum). The student must be registered for this ensemble during his or her senior year. Students who took 2230, 2240, 2250, or 2260 in sophomore year may use that course to fulfill the 3rd year of the primary ensemble requirement.
- B) The student has completed a minimum of three years of study in a second performing ensemble. The student must register for this ensemble during his or her senior year. Students who took 2230, 2240, 2250, or 2260 in sophomore year may use that course to fulfill the 3rd year of the primary ensemble requirement.
- C) The student completes a minimum of two full units of music knowledge courses: two full credits from Music Theory, Music History, or Principles of Orchestration and Electronic Composition.
- D) The student completes a minimum of 3 years of music lessons or the student completes 3 units of music knowledge courses. Students who took 2230, 2240, 2250, or 2260 in sophomore year may use that course to fulfill the 3rd year of the primary ensemble requirement.
- E) The student has an average of 93% or higher in the above music courses.
- F) The student meets all requirements for the five-unit sequence.
- G) The student **MUST** be in good standing with the department as determined by the Music faculty.
- H) Seniors applying for the certificate must complete the departmental application and meet all deadlines.

Applications for Certificate can be picked up in W001 starting March 1. Applications must be returned by April 2.

3-Unit MUSIC SEQUENCE

| | |
|-------------------|---------|
| Music Performance | 2 units |
| Music Knowledge | 1 unit |

5-Unit MUSIC SEQUENCE

| | |
|-------------------|---------|
| Music Performance | 3 units |
| Music Knowledge | 2 unit |

MUSIC KNOWLEDGE COURSES

| | |
|--------------------------|--------|
| Music Theory I | ½ unit |
| Music Theory II | 1 unit |
| History of Music | 1 unit |
| Electronic Orchestration | ½ unit |

MUSIC PERFORMANCE COURSES

| | |
|----------------------------|-----------------|
| Beginning Instrumental (9) | ½ unit |
| Woodwind (10) | ½ unit |
| Brass (10) | ½ unit |
| Percussion (10) | ½ unit |
| Strings (9 or 10) | ½ unit |
| Concert Chorus (9 - 12) | ½ unit (ea.yr.) |
| Concert Band (9 - 12) | ½ unit (ea.yr.) |
| Stage Band (9 - 12) | ½ unit (ea.yr.) |
| Perc. Ensem. (9 - 12) | ½ unit (ea.yr.) |
| Prep Chorus (9 - 12) | ½ unit (ea.yr.) |
| Music Lessons (9 - 12) | ½ unit (ea.yr.) |
| Chamber Choir (9 - 12) | ½ unit (ea.yr.) |
| String Orchestra (9 - 12) | ½ unit (ea.yr.) |
| Honors Orchestra (9 - 12) | ½ unit (ea.yr.) |
| Chamber Orchestra (9 - 12) | ½ unit (ea.yr.) |

PLEASE NOTE: Students planning to complete the music sequence should consult a member of the music department. Such students are encouraged to study privately. The freshman course, Mus. 2120, is not applicable toward the music sequence.

STUDENTS SHOULD CLEARLY UNDERSTAND THAT MUSIC COURSES ARE PERFORMING COURSES AND REQUIRE INDIVIDUAL PRACTICE TIME AT HOME.

Mus. 2010 (Period 8)

Chamber Choir, Honors

A two-semester course

Mus. 2010 requires departmental approval.

The Chamber Choir is an advanced performance ensemble that requires music literacy and vocal experience prior to audition. This elite ensemble performs a variety of traditional choral music. Its repertoire ranges from Medieval chants to contemporary jazz and provides a strong basis for education in standard performance practice. The class meets every day. Extra after-school rehearsals will be added for the week of a concert. Daily practice outside rehearsal is required. Attendance and participation in **ALL** rehearsals and performances are **MANDATORY**. The Chamber Choir performs 4 to 8 concerts a year. Grading is based on attendance, preparation, attitude, responsibility, and written and oral exams, quizzes, and homework.

Mus. 2020 (Period 8)

String Orchestra

A two-semester course

This course is open to students who took Music 2160 or 2260 (Strings) in the previous year, as it provides the practical application of the skills learned in class. It is also designed for incoming freshmen who have had little or no orchestral experience.

Mus. 2020 requires departmental approval.

This course is a training-centered ensemble with emphasis on ensemble playing, listening skills, and introduction to stylistic diversity. Grading is based primarily on participation, preparedness, responsibility, and respect. Daily at-home practice is absolutely required for this course. There are 3 concerts each year. The next step in the Orchestra sequence is Honors Orchestra (2030) and Music Lessons (2520).

Mus. 2030 (Period 8)

String Orchestra, Honors

A two-semester course

Mus. 2030 is for advanced students with experience in an orchestral environment.

This is an advanced course in orchestral string pedagogy. It will explore more substantial works from orchestral literature while maintaining the same stylistic diversity as Mus. 2020. Emphasis is on development of characteristic sound, stylistic interpretation, right hand execution, and mature points of ensemble playing. The ensemble presents at least two concerts a year. Students are required to register for music lessons, schedule permitting. Grades will be determined by fulfillment of potential, dedication, responsibility, and respect. Daily at-home practice is absolutely required for this course. As an honors course, the expectations of the students will be among the highest in the Music department.

Mus. 2040 (Period 8)

Percussion/Band Ensemble

A two-semester course

Co-requisite Mus. 2520

Mus. 2040 requires departmental approval.

The student will receive intensive instruction in orchestral percussion which includes snare drum, tenor drum, bass drum, cymbal, timpani, and all mallet instruments. Grading is based upon the student's progress, attendance, participation at all rehearsals and performances, homework, and quizzes, and mastery of the assigned repertoire.

ATTENDANCE AT ALL REHEARSALS AND PERFORMANCES IS MANDATORY AND COUNTS TOWARD THE GRADE. This group will meet during period 8 each school day, and Mondays from 3:00 to

5:30 p.m. for the entire year. Students in this course **MUST** sign up for music lessons (2520) at the director's discretion. Ensemble members are required to perform with the concert band, junior band, and/or string orchestra for concerts.

Mus. 2050 (Period 8)

Concert Band

A two-semester course

This course is open to all students who play a band instrument and will participate in the school band.

Mus. 2050 requires departmental approval.

This is a rehearsal course which covers the practicing of band material, sight reading, exercises, tuning procedures, and performance techniques. The grade will be determined by the student's ability to perform the band literature, improvement on the instrument, PARTICIPATION IN ALL BAND FUNCTIONS, homework, and quizzes. One-half hour of daily home practice is required. **ALL BAND MEMBERS MUST TAKE THIS COURSE.** Concert Band meets every day during period 8 in the auditorium.

PLEASE NOTE: Attendance at all rehearsals and performances is mandatory.

Mus. 2120

Introduction to Music

A one-semester course

This course is standard for freshmen.

The course explores the musical elements of rhythm, harmony, melody, form, timbre, etc., and is designed to develop an intelligent perception, understanding and appreciation of music.

Mus. 2150

Beginning Instrumental Music

A two-semester course

This course is open to freshmen in place of the introductory course.

Mus. 2150 requires departmental approval.

This course is an introduction to the playing of one of the following instruments: trumpet, French horn, trombone, baritone horn, tuba, clarinet, or flute. A minimum of one-half hour daily at-home practice is required. The next step in the Band sequence is Concert Band (2050) and Music Lessons (2520).

Mus. 2160

Strings

A two-semester course

This course is open to freshmen in place of the introductory course.

Mus. 2160 requires departmental approval.

This course is designed to give students a foundation in the rudiments of playing one of the instruments of the orchestral string family (violin, viola, cello, bass). Aside from the mechanics of playing, students will learn the fundamentals of music, including notation and reading, introduction to sight-singing, and construction of scales. Daily at-home practice is absolutely required for this class. The next step in the Orchestra sequence is String Orchestra (2020) and Music Lessons (2520).

Mus. 2210

Concert Chorus I

A two-semester course

This course is open to freshmen and sophomores.

Mus. 2210 requires departmental approval. A basic pitch matching audition is required prior to registration.

This is a performance course open to female students. Class meets 3 times a cycle during the school day. The course includes 2- and 3-part singing from all periods and styles, music literacy training, and ear training. It is designed to familiarize students with the fundamentals of vocal mechanism and healthy vocal use. The grade is determined by oral and written evaluations, homework, class work, rehearsals, and performances, **ALL OF WHICH ARE MANDATORY.**

Mus. 2230

Woodwinds

A two-semester course

This course is open to sophomores.

Mus. 2230 requires departmental approval.

This course is an introduction to the playing of the flute or the clarinet. Minimum one-half hour of daily home practice is required. The grade will be determined by the student's progress on the instrument and participation. The next step in the Band sequence is Concert Band (2050) and Music Lessons (2520).

Mus. 2240

Brass

A two-semester course

This course is open to sophomores.

Mus. 2240 requires departmental approval.

This course is an introduction to the playing of one of the following brass instruments: trumpet, French horn, mellophone, trombone, baritone horn, or tuba. Minimum one-half hour of daily home practice is required. The grade will be determined by the student's progress on the instrument and participation. The next step in the Band sequence is Concert Band (2050) and Music Lessons (2520).

Mus. 2250

Percussion

A two-semester course

This course is open to sophomores.

Mus. 2250 requires departmental approval.

The objectives of the course are to teach the student to perform on various percussion instruments with competence and to give the student knowledge of the fundamentals of music. The course includes: basic techniques, rudimental drumming, orchestral percussion, trap techniques, multiple percussion, music reading and dictation. The grade will be based upon testing, quizzes, participation, and diligent practice at home. The course acts as a feeder program for the percussion ensemble Mus. 2040.

Mus. 2260

Strings

A two-semester course

This course is open to sophomores.

Mus. 2260 requires departmental approval.

This course is designed to give students a foundation in the rudiments of playing one of the instruments in the orchestral string family (violin, viola, 'cello, bass). Aside from the mechanics of playing, students will learn the fundamentals of music, including notation and reading, introduction to sight-singing, and construction of scales. Daily at-home practice is absolutely required for this class. The next step in the Orchestra sequence is String Orchestra (2020) and Music Lessons (2520).

Mus. 2310

Concert Chorus II

A two-semester course

This course is open to juniors and seniors. A basic pitch matching audition is required prior to registration.

Mus. 2310 requires departmental approval.

This is a performance course for female students. The class, which meets 2 times a cycle during the school day, includes 2- and 3-part singing, music literacy training, and ear training. It is designed to familiarize students with the fundamentals of vocal mechanism and healthy vocal use. The grade is determined by oral and written evaluations, homework, class work, rehearsals, and performances, ALL OF WHICH ARE MANDATORY.

Mus. 2410

History of Music

A two-semester course

This course is open to juniors and seniors.

Mus. 2410 requires departmental approval.

This course will be a comprehensive survey of the major periods and figures in music history. Class activities include listening to representative works, undertaking score analysis, and submitting group projects. Grading will be based on test and quiz scores, class participation, and homework. A Regents examination will be given at the end of the year.

PLEASE NOTE: Seniors pursuing a 3- or 5-unit sequence in Music may use Music 2410 to satisfy the fourth unit in Social Studies. Please see the chairperson for details.

Mus. 2480

Music Theory I

A one-semester course in the Fall

This course is open to juniors and seniors.

Mus. 2480 requires departmental approval.

This is a music knowledge course designed to introduce students to the rudiments of musicianship (articulation of rhythms, audiation, and performance of melodies and harmonies) and elemental concepts of music theory (tonality, key signatures, chords, intervals, etc.). Students will develop a vocabulary that will equip them to communicate in the language of musical notation in order to prepare them for more advanced study in music theory both in high school and in college. Grading will be based on daily assignments, tests, and projects.

Mus. 2490

Principles of Orchestration and Electronic Composition

A one-semester course in the Spring

This course is open to juniors and seniors.

Mus. 2490 requires departmental approval.

This course will continue to build upon the material learned in Music Theory I. Additionally, the course will deal with the basics of traditional elementary orchestration. Students will learn how to record their compositions electronically via the medium of digital sequencing. Finally, the course will focus on computer software packages to teach notation and orchestration.

PLEASE NOTE: Music 2490 may be used to satisfy the school Computer Science requirement. It may not be used to satisfy a Science requirement.

Students should not take Music 2490 in place of Mus. 2410 or 2510. It should be taken in addition to those courses.

Mus. 2516

Advanced Placement Music Theory

A two-semester course

This course is open to juniors and seniors.

Prerequisite for Mus.2516 is Mus.2480 or departmental approval.

This is a Regents honors course in harmonic and compositional techniques. This course includes the intensive study of clefs, intervals, scales, chords, musical analysis, two- and four-part writing and dictation, cadences, and modulation. It also includes an introduction to the various compositional techniques and to the solfege concept. Grading is based on daily assignments, tests, projects, and compositions. A Regents examination will be given at the end of the year. The Advanced Placement examination is optional.

Mus. 2520

Music Lessons

A two-semester course

Mus. 2520 requires departmental approval.

This course is open to all instrumental students who participate in one of the school's performing groups. Scheduling will be based on availability of instructors during one of the student's free periods.

Mus. 2530

Prep Chorus, Honors

A two-semester course

This course is open to students on all grade levels.

Mus. 2530 requires an audition and departmental approval.

Prep Chorus is an educational performance course designed to give students a basic understanding of vocal mechanism, music literacy, audiation skills, and standard choral repertoire. Grading is based on attendance, preparation, attitude, responsibility, and written and oral exams, quizzes, and homework. Daily practice outside of rehearsal is also expected. The Prep Chorus performs at least 2 concerts a year. Attendance and participation in **ALL** rehearsals and performances are **MANDATORY**.

The rehearsal schedule is as follows:

| | | |
|---------------|-----------|-------------------|
| Female A | Monday | 3:00 to 4:00 p.m. |
| Female B | Tuesday | 3:00 to 4:00 p.m. |
| Male | Wednesday | 3:00 to 4:00 p.m. |
| Full Ensemble | Thursday | 3:00 to 4:30 p.m. |

* Extra rehearsals will be added for the week of a concert.

Mus. 2550

Chamber Orchestra, Honors

A two-semester course

Mus. 2550 is an honors course open only by vacancy and audition.

Co-requisite: Mus. 2030 (String Orchestra, Honors)

Chamber Orchestra is for exceptionally advanced students with significant experience in an orchestral environment. The Chamber Orchestra performs up to 20 times a year and both school and outside events. The course begins the last two full weeks of August and rehearses both during H period and on Friday afternoons at 3:00 p.m. during the school year. The highest level of professionalism and musicianship is required at all times, especially given the very public nature of this ensemble. Students should also register for Mus. 2520 (Lessons), schedule permitting.

Mus. 2630

Stage Band, Honors (Jazz Ensemble)

A two-semester course

Co-requisite Mus. 2050

This course is open to members of the school band who have passed an audition, consisting of 10 major scales, a prepared piece, and a sight-reading selection.

Mus. 2630 requires departmental approval.

This is an advanced performance course for experienced musicians. The course consists of intensive rehearsals and performances in the jazz and fusion idioms. Grading is based upon improvement on the instrument, preparation of the assigned music, attendance at all rehearsals and performances, homework, and quizzes. **THE REHEARSAL SCHEDULE IS AS FOLLOWS:**

| | |
|-------------|--|
| MONDAYS: | Saxophone and Rhythm Sectional – 3:00 to 3:35 p.m. |
| TUESDAYS: | Full Ensemble – 3:00 to 4:30 p.m. |
| WEDNESDAYS: | Trombones – 3:00 to 3:35 p.m. |
| THURSDAYS: | Trumpets – 3:00 to 3:35 p.m. |
| FRIDAYS: | Full Ensemble – 3:00 to 4:30 p.m. |

RELIGION

The religion program is designed to provide the opportunity for students to grow in faith and to acquire knowledge of God, themselves, and others. In order to achieve this end, the Religious Education Department has established a developmental program. Areas of curriculum include the Church, Scripture, morality, ministry, personal faith, and self-awareness. The first two years of study are the foundation upon which the elective program is built.

Rel. 9120

Religion 9

A two-semester course

This course is required of all freshmen.

The freshman religious education program focuses on the centrality of self-knowledge and Scripture in attaining an understanding of God. Because ninth grade students are seeking to understand themselves and because God speaks to them through their own self-understanding, we hope throughout the year to provide an opportunity for the students to come into contact with who they are in relationship to themselves, others, and God. This course will provide students with a basic survey of doctrinal beliefs, communal worship, and moral principles of Roman Catholicism.

Rel. 9220

Religion 10

A two-semester course

This course is required of all sophomores.

The sophomore religious education program is concerned with how we, as persons, relate to others. As Catholic Christians, we will look to the person of Jesus as the model for relating to others and to God. By studying the New Testament, sophomores will examine how Jesus calls all people to wholeness, to community, and to Christian values in the creation of the Kingdom of God, here and now.

Rel. 9380

Christian Service

A two-semester course

This course is open to juniors.

Students must achieve a grade of 85% or better in Religion 10 to be eligible for Christian Service.

This course will provide students with the experience of service at various agencies within the community. The aim of the course is to concretize the concept of service to others as highlighted in the U.S. Bishops' Pastoral "To Teach as Jesus Did." Students will receive guidance from and meet with the agency supervisor and with the teacher once a cycle for discussion of the service being given. The course combines classroom input and outside work in the community which may be done after school or on weekends. In addition, students must complete reflection papers regarding their particular service and are expected to keep a weekly journal.

Rel. 9410

Morality

A one-semester course

This course is open to juniors and seniors.

This is a course which examines some of the moral decisions with which we are faced in today's world. It discusses the relationship between what we value and how we act. It studies different approaches to morality and especially Christian moral attitudes. Moral theory is applied to particular moral issues, such as: euthanasia, drug abuse, abortion, and social justice.

Rel. 9420

Philosophy of Life

A one-semester course

This course is open to juniors and seniors.

"Philosophy of Life" is concerned with the way people develop and utilize a personal world view. We will examine such questions as: What is truth? What is reality? What does it mean to be human? and What does it mean to live a life of value? As this is a Christian school, we will reflect on the way humans think, perceive, and act in the light of the way Jesus lived and taught. The aim is to expose students to the art of critical thinking and to engage them in learning as active, creative human beings. The assignments are designed to appeal to a number of different learning styles and intelligences.

Rel. 9430

Body, Mind, and Spirit

A one-semester course

This course is open to juniors and seniors.

For too long, people have been raised with the notion that individuals were made up of separate components (a body, a mind, a spirit) that acted independently of each other. Following such an approach to life can result in a fragmented existence. The "great ones" throughout history – whether inspirational leaders, artists, musicians, or athletes – were the ones who managed to integrate all three components in their lives, thus recapturing the unified view of the person as found in the Bible. The purpose of this course is to seek a holistic outlook, to erase the boundaries that have prevented a fuller appreciation of all that life has to offer and, ultimately, to see wholeness as a path to holiness: life as it is meant to be.

Rel. 9440

Issues in Scripture

A one-semester course

This course is open to juniors and seniors.

To appreciate the challenge of faith is to see its role in all that we are: in our beliefs, our relationships, and our outlook on the world and events around us. Students will probe the more puzzling aspects of biblical faith and its relevance today. Discussions will address the following issues: Abraham, a model relationship; Miracles, Hype or Challenge; Apocalypse, timetable of events or foreshadowing for everyone's life.

Rel. 9450

Sacred Art and Christianity

A one-semester course

Rel. 9450 is open to juniors and seniors.

Rel. 9450 requires departmental approval from chairperson of the Art department.

This course is a study of the history of the Church through the lens of Art. The course will focus on the spiritual traditions of Christianity and how they have inspired the creativity of the artist. The class will combine a historical overview with the challenge of a reflective spirituality. We will explore how the development of Catholic theology is reflected in the art, music, and poetry of the time. Catholic liturgy and other rituals will provide foundations upon which the course will be built. The anatomy of sacred art will be exposed to critique, contemplation, and meditation.

NOTE: Students pursuing a three- or five-unit sequence in Art may use this course for one-half credit toward that sequence. Please see the Chairperson of the Art Dept. for details.

Rel. 9470

Social Justice

A one-semester course

This course is open to juniors and seniors. Space is limited.

The course will explore some of the social imbalances in our world. This will be accomplished through an examination of various social injustices, such as world poverty and hunger, militarism, the destruction of our

environment, and the struggle for justice throughout the world. The life and message of Jesus will be examined as a counter-cultural figure.

Rel. 9490

The Many Faces of Faith

A one-semester Course

This course is open to juniors and seniors.

Throughout human history, religion has been a source of both peace and conflict for humanity. The purpose of this course is to provide an opportunity for students to explore respectfully and critically the tenets, practices, and spirituality of the religions of the world. Topics will range from ancient, primitive religions to the major religions that are practiced today. Students will discover that by approaching diverse religious beliefs with intelligence and openness religion can be a source of healing and unity rather than of strife and division.

PLEASE NOTE: Students taking this course for college credit must submit a research paper.

Rel. 9510

Francis: The Way of the Peaceful Warrior

A one-semester course

This course is open to juniors and seniors.

Francis of Assisi is an extraordinary individual who emerges at a critical historical moment. By simply living his life as best he understood it, Francis managed to exert an amazing influence on those he came in contact with, elevating them to a deeper realization of what we are all called to be. Using the life of Francis as our starting point, we will explore a Gospel approach to living and how this approach relates to our world. We will also examine the role spirituality plays in our daily experiences.

Rel. 9530

Jesus and Film

A one-semester course

This course is open to juniors and seniors. Space in this class is limited.

This course seeks to explore how Scripture has been employed in the service of film. We will examine images of Jesus from the perspectives of the Gospel and compare and contrast those images with those of Jesus as portrayed in various films. Students will explore the values and spirituality that are generated through television and the film industry.

Rel. 9560

Making Peace: Healing Life's Wounds

A one-semester course

This course is open to juniors and seniors.

Grounded in an appreciation of loss and healing, we will examine the factors that promote healthy life choices and those that hinder them. We will surface some of the obstacles that stand in the way of making peace with our families, our failures, broken relationships, and losses. Ultimately, we will seek to grasp the freedom found in Jesus' command to "take up your mat and walk!"

Rel. 9660

Human Sexuality and Love

A one-semester course

This course is open to seniors.

This course helps students understand God's gift to them: their sexuality. We will take a holistic approach to the study of the biological, relational, and moral components of this rich aspect of our humanity. The goal is for students to grow in self-awareness and confidence and expand their ability to make healthy, mature sexual decisions.

SCIENCE

The Science Department offers a comprehensive, in-depth program of study in the physical, life, and environmental sciences. The Science Department offers all four New York State Regents courses: Earth Science, Chemistry, Physics (Physical Setting) and Biology (the Living Environment). We also offer four Advanced Placement courses: Physics AB, Chemistry, Biology, and Environmental Science. Students may participate in authentic Science Research, a 3-year sequence of courses that emphasizes the research process and presentation of a final research report.

PLEASE NOTE: All students **must** take **three** years of Science and must pass at least **one** Science Regents exam in order to graduate. Students may use up to one (1) credit of Computer Science to fulfill the requirement of three (3) units of Science.

Sci. 1070 (Period 8)

Science Research

A two-semester course

This course is open to sophomores.

Sci. 1070 requires departmental approval.

Students in this class will meet every day before school and during a free period once every other cycle with a teacher who will supervise their research. Students will start their own independent research problem in the biological, physical, social, or behavioral sciences, or in engineering or mathematics. The process involves background research using the library and Internet resources; students will design experimental procedures with the help of a professional scientist as mentor. Students will complete experiments, write a formal research paper, and present results. Students will not be given projects on which to work but must be prepared to study an individual topic of their choice.

Sci. 1100

Advanced Physical Science, Honors

A two-semester course

This course is open to freshmen.

Sci. 1100 require departmental approval.

The course is similar in content to Sci. 1110 but is conducted on a more intensive and accelerated basis for students with particular interest and ability in science.

Sci. 1110

Advanced Physical Science

A two-semester course

This course is open to freshmen.

This course will emphasize critical thinking skills so that students may become proficient and creative in their inquiry of science. Beginning with an introduction to the scientific method and inquiry, the course then applies these skills to aspects of chemistry and physics. These disciplines will be covered at a basic level so as to engage the students and lay the foundations for future study in these disciplines.

Sci. 1200

Biology, Honors: the Living Environment

A two-semester course

This course is open to sophomores who have completed Advanced Physical Science.

Sci. 1200 requires departmental approval.

The course is a Regents course similar in content to Sci. 1220 but is conducted on a more intensive basis for students with particular interest and ability in the life sciences.

Sci. 1216

Advanced Placement Biology

A two-semester course

This course is open to **sophomores**.

Sci.1216 requires departmental approval.

This course introduces advanced material in the biological sciences and laboratory methods which are intended to provide students with an intensive course in college-level biology. Students will take the Advanced Placement Biology exam in May. Students will also take the New York State Regents exam in June will take the exam.

Sci. 1220

Biology: the Living Environment

A two-semester course

This course is open to sophomores.

This is a Regents course presenting a modern view of current biological theories and their relationship to experimental information. Areas of study include modern cell theory, evolution, bio-chemistry, physiology, anatomy, and current developments in the life sciences, especially in the fields of ecology and environmental science. Laboratory work is an integral part of the course which fosters student inquiry and acquisition of essential skills and techniques. All students take the Regents exam in June.

Sci. 1300

Chemistry, Honors: the Physical Setting

A two-semester course

This course is open to juniors and seniors.

Sci. 1300 requires departmental approval.

The course is a Regents course similar in content to Sci. 1320 but will be conducted on a more intensive basis for students with higher interest and performance in the sciences and mathematics.

Sci. 1320

Chemistry: the Physical Setting

A two-semester course.

This course is open to juniors and seniors.

This Regents course presents a modern view of chemical theory and experimental practice. An integral part of the course will be the application of chemical concepts, calculations, and the observation, recording, and presentation of experimental information gathered through laboratory experiences. The relation of chemical theory to laboratory findings is emphasized. Laboratory work is designed to encourage students to perceive scientific relationships through personal experience and to acquire essential skills and techniques.

Sci. 1400

Physics, Honors: the Physical Setting

A two-semester course

This course is open to seniors and to juniors who are enrolled in their third year of mathematics.

Sci. 1400 requires departmental approval.

This course is more comprehensive than Sci. 1410 in its presentation of the fundamental concepts of classical and modern physics. The course includes more advanced applications of physics principles and additional practice in problem solving and mathematical methods. The mandatory laboratory work involves more extensive analysis of data and results and reasoning in drawing conclusions. This course is intended to prepare students to succeed in a rigorous college physics course. It provides essential practice in the use of the scientific method in problem solving, advancement of techniques in laboratory work, and development of critical thinking skills. In addition to the basic physics curriculum, the course includes the following topics: high and low temperature physics; geometric optics, lenses, and optical instruments; electromagnetism; and radioactivity and nuclear energy.

Sci. 1410

Physics: the Physical Setting

A two-semester course

This course is open to seniors and juniors who are enrolled in their third year of mathematics.

This course is a basic Physics course that presents the fundamental concepts of classical and modern physics for high school students. This work includes extensive practice in appropriate mathematical methods and mandatory laboratory work that is integral to the course of study. The course provides practice in the use of the scientific method that is needed to succeed in a first-year college science course. Outcomes will include advancement in techniques of problem solving and laboratory work and development of critical thinking skills. The major units of study are mechanics, energy, waves and sound, light and optics, electricity and magnetism, and modern physics.

Sci. 1450

Human Anatomy and Physiology

A one-semester course

This course is open to juniors and seniors who have taken biology and chemistry.

Sci. 1450 requires departmental approval.

The course is a systematic approach to the human body, anatomically and physiologically. This course will provide the student with the background for future courses in the allied health fields. Laboratory work is an integral part of the course. Students pursuing a career in nursing, medical technology and nutrition are candidates for this course.

PLEASE NOTE: Students taking Sci. 1450 are strongly urged to take Sci. 1420 as well.

Sci. 1460

Issues in Science and Society

A one-semester course

This course is open to juniors and seniors.

Sci. 1460 requires departmental approval.

The course will deal with current topics in Science, such as global warming, ozone depletion, infectious diseases, starvation, dwindling water supplies, stem cell research, genetically modified foods, vaccinations and autism, and cloning. Students are required to write essays in response to each topic; a major research paper and presentation on a specific topic are due by the end of the course. Students may choose other topics that are in the news and are approved by the instructor.

Sci. 1470

Forensic Science

A one-semester course

This course is open to seniors only.

Sci. 1470 requires departmental approval.

This course is a survey course exploring the ever-evolving scientific techniques used in forensics. Forensic Science is a multidisciplinary course centered on the scientific method. Coursework will be developed around a set of process-oriented, student-centered investigations in the lab. In order to be accepted into the course, an application must be submitted, and science, math, social studies, and English grades must be 85% or higher.

PLEASE NOTE: Co-requisite: Physics. Suggested co-requisite: Forensic Criminology in the Social Studies department).

Sci. 1480

Practical and Theoretical Astronomy

A one-semester course

This course is open to juniors and seniors.

Sci. 1480 requires departmental approval.

The course is for students interested in studying theoretical, practical, and observational aspects of astronomy. The course will utilize a wide variety of instructional approaches, including audio-visuales, lab activities, and lectures, which will provide the students with a basic knowledge of astronomy. The most important component of this course is the use of the Internet for observing solar system phenomena and stellar and galactic life cycles as seen through telescopic and space probe observations. Students will keep a daily diary based on information supplied through the Astronomy Picture of the Day (APOD) and classroom simulations using state-of-the-art software.

Sci. 1490

Science Research

A two-semester course

This course is open to juniors and seniors.

Sci. 1470 requires departmental approval.

Please see Sci. 1070 for description and requirements. This section will meet **after school**.

Sci. 1536

Advanced Placement Environmental Science

A two-semester course

This course is open to juniors and seniors.

Sci. 1536 requires departmental approval.

This course will deal with the principles of ecology and their relationship to environmental problems facing the world today. Within the framework of ecological principles, the course will cover energy and material cycles in nature, natural resources abundance and exploitation, population dynamics, and evolution. The impact of humans on the environment will be the major focus of the course. This course will have a double laboratory component and will have some fieldwork involving the ocean, lakes, rivers, and various terrestrial investigations. All students must take the Advanced Placement exam in May.

Sci. 1556

Advanced Placement Biology

A two-semester course

This course is open to juniors and seniors who have taken biology and chemistry.

Sci. 1556 requires departmental approval.

Advanced Placement Biology is a second course in biological sciences designed to give the student a comprehensive and in-depth investigation into the phylogenetic survey of basic physiological functions, modern molecular genetics, developmental biology, and the biochemistry of living systems. Laboratory work is integral to this study. A research paper, or project is required. All students must take the Advanced Placement exam in May.

Sci. 1576

Advanced Placement Chemistry

A two-semester course

This course is open to juniors who have taken A.P. Biology and juniors and seniors who have completed one year of Chemistry.

Sci. 1576 requires departmental approval.

This course is designed for students who have shown previous, superior performance and demonstrate a high interest in chemistry. The major areas covered are: periodic table and atomic structure, kinetics and thermodynamics, physical characteristics of states of matter, and a detailed study of a representative group of elements. Laboratory work emphasizing the techniques of a chemist is integral to the course of study. All

students must take the Advanced Placement exam in May.

Sci. 1596

Advanced Placement Physics

A two-semester course

This course is open to seniors who have completed one year of physics; other students must see the Science department chairperson.

Sci. 1596 requires departmental approval.

This course is designed for students with a high-level of interest and achievement in the physical sciences, as well as for those who wish to pursue engineering in college. Major areas of study will include mechanics, electricity, and magnetism. All students must take the Advanced Placement exam in May.

SOCIAL STUDIES

Perhaps the central fact of our age is that, for the first time in history, we live in an inter-related, multicultural world. The Social Studies program is designed to foster and develop global awareness – to see the differences in peoples and learn to appreciate them. It is geared to help us recognize that to be different, or to do things differently, is not to be wrong. It helps us to understand the way others think, behave, and make decisions. The program instills in the students a desire to meet the challenges of a fast-changing world scene, of moving toward a global community in which peace, social justice, and quality of life play a major role.

Soc. Stu. 8020 (Period 8)

Global History II

Soc. Stu. 80200 requires pre-registration.

See Soc. Stu. 8220 for details.

Soc. Stu. 8030 (Period 8)

Introduction to Sociology

See Soc. Stu. 8430 for course description.

Soc. Stu. 8040 (Period 8)

United States History and Government

Soc. Stu. 8040 requires pre-registration.

See Soc. Stu. 8320 for details.

Soc. Stu. 8060 (Period 8)

Criminal Justice

See Soc. Stu. 8460 for course description.

If you take Soc. Stu. 8060, you may **not** take Soc. Stu. 8420.

Soc. Stu. 8076 (Period 8)

Advanced Placement Psychology

A two-semester course

This course is open to seniors only.

Soc. Stu. 8076 requires departmental approval.

This course will introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the facts, principles, and phenomena of the major subfields in psychology. They will also learn about the methods psychologists use in their science and practices. Students will qualify for college credit upon taking the recommended Advanced Placement Psychology exam. If you take Soc. Stu. 8076, you may **not** take Soc. Stu. 8550.

Global History I and II

The emphasis of this two-year program is to help students gain a global view of humankind's development from earliest civilizations to the present. A comprehensive final exam is required at the end of Global History I; a Regents Examination is required at the completion of Global History II.

Soc. Stu. 8100

Global History I, Honors

A two-semester course

This course is open to freshmen.

Soc. Stu. 8100 requires departmental approval.

The course content is similar to that of Soc. Stu. 8120 but a more in-depth approach is required through written and oral assignments which include knowledge of current events, outside readings and research, book reports, analytical essays, oral presentations, and projects.

Soc. Stu. 8120

Global History I

A two-semester course

This course is the standard course for freshmen.

The emphasis of this course is to gain a global view of humankind's development from the earliest civilizations of Egypt, Mesopotamia, China, and India to the beginning of Modern European history (circa 10,000 B.C. - 1700 A.D.).

Soc. Stu 8136

Advanced Placement World History

A two-semester course

This course is open to freshmen.

Soc. Stu. 8116 requires departmental approval.

This course emphasizes the nature of change in international frameworks, their causes and consequences, and comparisons among societies. It focuses on relevant factual knowledge used in conjunction with leading interpretive issues and types of historical evidence. A.P. World History is a two-year course. Students who take the course in freshman year must continue and complete the course in sophomore year. Students will take the A.P. exam in May of the second year.

Soc. Stu 8200

Global History II, Honors

A two-semester course

This course is open to sophomores.

Soc. Stu. 8200 requires departmental approval.

This Regents course reviews many of the topics from Soc. Stu. 8120 and covers topics similar to those in Soc. Stu. 8220. A more in-depth approach is required through written and oral assignments which include outside readings and research, book reports, analytical essays, oral presentations, and projects. Current events are also an integral part of the course. Selection for this course is based on the results of a Social Studies skills exam, performance in Global History I, and teacher recommendation.

Soc. Stu 8220

Global History II

A two-semester course

This course is the standard course for sophomores.

The emphasis of this Regents course is the study of the development of the modern world from the Enlightenment to the present. Concepts such as revolution, imperialism, nationalism, socialism, communism, and war in the Western and non-Western world will be investigated.

Soc. Stu. 8236

Advanced Placement World History II

A two-semester course

Soc. Stu. 8236 requires departmental approval.

This course is the second part of the A.P. World History curriculum. Students who took A.P. World History I must take this course; no other students may take it. This course continues the A.P. curriculum up to the present day. Students will take the A.P. exam in May of the second year.

PLEASE NOTE: All Juniors **must** take either Soc. Stu. 8306 or 8320.

Soc. Stu. 8306

Advanced Placement American History

A two-semester course

This course is open to juniors.

Soc. Stu. 8306 requires departmental approval.

A.P. American History will provide students with the analytical skills and factual knowledge necessary to deal with problems and materials in American history. The course should equip students to deal with intermediate and advanced college courses. Students will learn to assess historical materials, their relevance to an interpretive problem, and their reliability. Students will analyze and interpret primary sources, including documentary materials, maps, statistical tables, cartoons, and graphic evidence. Students must be willing and able to work independently to study for exams and to research and write theme essays. Students will qualify for college credit upon taking the recommended Advanced Placement American History examination.

Soc. Stu. 8320

United States History and Government

A two-semester course

This course is the standard course for juniors.

The course is designed to enable students to explore the past history of the United States from the founding of the Republic to the present. It will focus attention on significant political, economic, and social developments from both a chronological and conceptual approach. The role of the United States as a nation in a world community will be presented through our domestic and foreign policies. Stress will be placed upon the critical analysis of these events.

PLEASE NOTE: Students must take four units of Social Studies.

IN COURSES OPEN TO JUNIORS AND SENIORS, THE REGISTRATION NEEDS OF SENIORS ARE GIVEN PRIORITY.

Soc. Stu. 8420

American Law and Justice

A two-semester course

This course is open to juniors and seniors.

This course is designed to provide students with an understanding of the fundamental principles and values underlying our Constitution, laws, and legal system. The first semester includes the study of law and the criminal justice system. The focus is on the offender, victim, police, courts, and prisons. The second semester examines a range of legal issues that touch our daily lives -- personal injuries and damages, contracts, marriage, divorce, consumer protection, wills, inheritances, and individual rights and liberties. Mock trials and field trips will be included.

PLEASE NOTE: If you take Soc. Stu. 8420, you may **not** take Soc. Stu. 8060 or Soc. Stu. 8460.

Soc. Stu. 8430

Introduction to Sociology

A one-semester course

This course is open to juniors and seniors.

Sociology is the study of human relationships. This course focuses on some of the major sociologists and their theories. It introduces the student to the scientific thrust of sociology through research. The language of sociology assists students to understand their world in a more objective manner, as they pursue the causes of various problems in communities and the reasons for strengths and weaknesses in social groupings of all kinds. The social institutions as they are seen in the United States and in other world cultures are examined.

Soc. Stu. 8440

Introduction to Economics

A one-semester course

This course is open to juniors and seniors.

This course is an introduction to economic concepts, theories, and practices. Topics include comparative economic systems, price and wage determination, business organization, labor organization, economic performance, income distribution, business cycles, money, banking, Federal Reserve policy, public finance, and international trade and finance.

Soc. St. 8450

Forensic Criminology

A one-semester course

This course is open to juniors and seniors.

This course will be instructed as a study of forensics and criminal investigations under the social studies umbrella. Students will use textbooks to learn of the different types of evidence left at a crime scene, how to collect and secure that evidence, and the potential results of laboratory examination of that evidence for the purpose of arresting a suspect and court prosecution.

PLEASE NOTE: Some of the images viewed in this course may be disturbing. A small materials fee may be required.

Soc. Stu. 8460

Criminal Justice

A one-semester course

This course is open to juniors and seniors.

The course is designed to demonstrate the nature of criminal law and the criminal justice process, from arrest through trial. It will offer a comprehensive examination of our criminal justice system, including the police, the courts, and prisons. Topics include: rights of crime victims and accused, search and seizure, plea bargaining, and sentencing. A mock trial and a field trip to the courts will be included in this course. **NOTE:** If you take Soc. Stu. 8460, you may **not** take Soc. Stu. 8420.

Soc. Stu. 8470

Contemporary World Issues

A one-semester course

This course is open to juniors and seniors.

This is an introductory course in international relations today. Topics include the role of the United States in the world, regional and international tensions, human rights issues, environmental concerns, economic trade issues, globalization, and international organizations. A model United Nations role play will be part of the course. This course is recommended for those students who are involved or interested in the Model United Nations.

Soc. Stu. 8480

History of World War II

A one-semester course

This course is open to seniors.

There is perhaps no other armed conflict in world history that has had the same impact upon humanity as the Second World War. This course will study the many causes of the war, the time period of the war itself (1939-1945), and the effects -- both long-term and immediate -- the war would make upon society. The course is geared toward those students who, after having studied the war earlier in high school, are interested in learning more about it.

Soc. Stu. 8490

History of New York City

A one-semester course

This course is open to seniors.

The purpose of this course is for students to explore the political, social, and economic issues and events surrounding the history of our great city. Topics will include Dutch settlement, British takeover, American Revolution, the industrial metropolis, Central Park, the Civil War, Age of Bosses, and the Brooklyn Bridge. We will also study immigration, skyscrapers, the Depression and New Deal, World War II, the United Nations, Wall Street, and the aftermath of September 11, 2001. Tours and trips to the city will be a requirement.

Soc. Stu. 8550

Introduction to Psychology

A one-semester course

This course is open to seniors.

Soc. Stu. 8550 requires departmental pre-registration.

As an introduction to the science of behavior, this course will cover the major areas of psychological research. Through a balanced presentation of differing theoretical perspectives, an understanding of the basic facts, principles, and methods of psychology will be sought. Topics include: developmental theories, personality, learning, consciousness, and abnormal psychology.

Soc. Stu. 8560

Constitutional Issues

A two-semester course

This course is open to seniors.

Soc. Stu. 8560 requires departmental approval.

The course work enhances students understanding of the institutions of American constitutional democracy. Students discover the relevance of the Constitution and Bill of Rights. Critical thinking exercises, problem-solving activities, and cooperative learning techniques help develop the participatory skills necessary for the students to become active, responsible citizens. An extension of this course is conducted outside the classroom. The class will meet two days a week after school, 2:45 to 4:30 p.m.

Soc. Stu. 8586

Advanced Placement United States Government and Politics

A two-semester course

This course is open to seniors only.

Soc. Stu. 8586 requires departmental approval.

This course includes both the study of general concepts used to interpret U.S. politics and the analysis of specific examples. Topics will include political beliefs and behaviors, institutions of national government, public policy, civil rights and civil liberties, and political parties, interests groups, and mass media.

IMPORTANT REMINDERS:

1. If you are a transfer student please see your Guidance Counselor for course advisement.
2. 7:50am (Period) / Extra credits must be approved and submitted on a separate form.
3. The third credit for *Science may be fulfilled with *computer science courses* (see item 4 for course options).
4. Computer Science Requirement (junior / senior year) can be fulfilled with specific courses from either *Art, Business, Computer, or Music Department*.
5. Health and Computer Science must be taken in Junior or Senior Year.
6. All students are encouraged to see their Guidance Counselor for advisement.
7. Please be mindful of ALL deadlines associated with the Course Selection Process.
8. **ALL Students must register on line (www.sfponline.org) for Courses. Deadline is posted in coursebooklet.**

SAINT FRANCIS PREPARATORY SCHOOL
COURSE OFFERINGS 2010-2011

COLLEGE CREDIT PROGRAM

Detailed information for specific course offerings and registration can be located on the SFP website.

SFP has an affiliation with St. Francis College, St. John's University and Pace University to provide an opportunity to earn college credit while in high school. These courses are taken at SFP and are among the student's regularly scheduled classes.

The credits earned may be transferable to the college a student attends after graduation. Each college determines eligibility of such credits.

It is strongly recommended that interested students do some research prior to registration for any college credit courses. Although college credit is accepted at many colleges and universities, there are some schools that may not accept earned credits. It is the students responsibility to gather this information before making the commitment to register in the program.

CRITERIA: JRS: MUST HAVE 85 GPA. SRS: MUST HAVE 80 GPA.

In addition to GPA, student must also demonstrate PSAT / SAT score of:
100 / 1000 (math / critical reading combined)

Costs for each semester course are as follows:

| | |
|-----------------------|----------|
| St. John's University | \$250.00 |
| St. Francis College | \$150.00 |
| Pace University | \$150.00 |

Registration takes place for the FALL in September.

Registration takes place for the SPRING in January.

Specific days and times are located on the school calendar and website.

Registration takes place at SFP. Students must adhere to times and dates posted.

SFP is responsible to complete all registrations in a timely manner to ensure applications are processed in accordance with the college's deadline.

There are a variety of courses available for college credit in the following subject areas:

| | |
|------------------|------------------|
| Computer science | Foreign Language |
| Art | Religion |
| Music | Science |
| English | Social Studies |

The listing of specific courses is located on the SFP website.

COURSES OFFERED A.M.)

DURING H PERIOD (7:50

Students who wish to take extra credits may take any of the following courses during H period (7:50 a.m.).

| | |

| Art 2070 | Movement for Performers |
| Art 2080 | Advanced Dance |
| Art 2090 | Two-Dimensional Design |
| Art 2093 | Two-Dimen.Design, Sophs. |
| Phys. Ed. 7010 | Health |
| Soc. Stu. 8020 | Global History II |
| Soc. Stu. 8030 | Sociology |
| Soc. Stu. 8040 | U.S. History |
| Soc. Stu. 8060 | Criminal Justice |
| Soc. Stu. 8076 | A. P. Psychology |

Permission for extra units or an H period 8 class must be approved by one of the Assistant Principals. Use the Request Form on **Page 68** of this book to list **all** the courses you hope to take (not just those in period 8).

Obtain the Chairperson's permission for **every course requiring approval**. Return the form to your COR teacher by the end of COR on Monday, 26 January. Forms are due in COR on **Monday, 26 January**.

Approved forms will be stamped with Mr. McLaughlin's or Mr. Castellano's name and a copy returned to you by 29 Jan. Forms not approved will also be returned.

Keep these forms to transfer the information to the official form. You do **not** need the chairperson's approval again.

IMPORTANT: Only students who are taking more than the required number of credits may take a course during the 7:50 a.m. period (period 8). The exception to this restriction is for those students taking courses that meet only at this time: 0040, 2000, 2010, 2020, 2030, 2040, 2050, 2060, 2070, 2080, 8076.

Students should carefully consider whether they are capable of carrying extra units. Please be sure to consult with parents, teachers, and guidance counselors before signing up for extra class. Students choosing an extra unit will **not** be permitted to drop the course. Parents must give their signed permission for any extra unit courses.
